Secretary Henry M. Paulson, Jr. urges the Senate to pass legislation that will strengthen the government-sponsored enterprises. "I look forward to working with the Senate to get legislation to the President's desk this week," said Paulson. He commended the House Wednesday on quick action to pass a housing bill. "I'm pleased the House acted quickly to pass an important GSE bill that will provide temporary authorities to give confidence to markets and will create a strong, independent regulator better able to address the risks these enterprises pose."
