Managing Financial and Corporate Distress: Lessons from Asia

Charles Adams

Robert E. Litan

Michael Pomperleano

Summary

More than three years have elapsed since the East Asian financial crisis erupted, threatening economic and financial stability in the region and beyond. Although many of the region's economies have since staged a remarkable turnaround, much additional restructuring and reform is needed. *Managing Financial and Corporate Distress: Lessons from Asia*, stands out from other works on the East Asian crisis by moving beyond macroeconomic assessments to offer an institutional treatment of the microeconomic aspects of the corporate and bank restructuring. Contributors draw on their practical, hands-on expertise in various aspects of finance to provide complementary perspectives on how best to set in place strong and responsive institutions that might be able to resolve and avoid future crises in other emerging markets.
