## BANK OF CANADA

FINANCIAL STATEMENTS

DECEMBER 31, 2020

### Financial Reporting Responsibility

Management of the Bank of Canada (the Bank) is responsible for the financial statements, which are prepared in accordance with International Financial Reporting Standards. The amounts and financial information included in the statements reflect management's best estimates and judgment. Financial information presented elsewhere in the Annual Report is consistent with the financial statements.

Management is responsible for the integrity and reliability of the financial statements and the accounting system from which they are derived. The Bank maintains a system of internal controls to provide reasonable assurance that transactions are properly authorized and recognized, that financial information is reliable, that assets are safeguarded, that liabilities are recognized, and that operations are carried out effectively. The Bank's internal audit department reviews internal controls, including the application of accounting and financial controls.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Board exercises this responsibility through its Audit and Finance Committee (the Committee). The Committee is composed of members who are neither officers nor employees of the

Bank and who are financially literate. The Committee is therefore qualified to review the Bank's annual financial statements and to recommend their approval by the Board of Directors. The Committee meets with management, the Chief Internal Auditor and the Bank's independent auditors, who are appointed by the Governor-in-Council. The Committee has established processes to evaluate the independence of the Bank's independent auditors and oversees all services provided by them. The Committee has a duty to review the adoption of, and changes in, accounting principles, policies and procedures that have a material effect on the financial statements, and to review and assess key management judgments and estimates material to the reported financial information.

These 2020 financial statements have been audited by the Bank's independent auditors, PricewaterhouseCoopers LLP and KPMG LLP, and their report is presented herein. The independent auditors have full and unrestricted access to the Committee to discuss their audit and related findings.

## **Independent Auditors' Report**

To the Minister of Finance, registered shareholder of the Bank of Canada

### **Our opinion**

We have audited the financial statements of the Bank of Canada (the Bank), which comprise the statement of financial position as at December 31, 2020, and the statement of net income and comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

### **Basis for opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *"Auditors' responsibilities for the audit of the financial statements"* section of our report. We are independent of the Bank in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Other information**

Management is responsible for the other information. The other information comprises the information, other than the financial statements and our auditors' report thereon, included in the 2020 Annual Report. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information, identified above, and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of management and those charged with governance for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

### **Auditors' responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Notes to the financial statements of the Bank of Canada

For the year ended December 31, 2020

### 1. The business of the Bank of Canada

The Bank of Canada (the Bank) is the nation's central bank. The Bank is a corporation established under the *Bank of Canada Act*, is wholly owned by the Minister of Finance on behalf of the Government of Canada and is exempt from income taxes. The Bank does not offer banking services to the public.

The address of the Bank's registered head office is 234 Wellington Street, Ottawa, Ontario.

The Bank conforms to the financial reporting requirements of the *Bank of Canada Act* as prescribed in the Bank's bylaws, which require that the Bank's financial statements be prepared in accordance with generally accepted accounting principles as set out in the *CPA Canada Handbook*, published by the Chartered Professional Accountants of Canada (CPA Canada). Consistent with CPA Canada guidance, the Bank is a government business enterprise as defined by the Canadian Public Sector Accounting Standards and, as such, adheres to the standards applicable to publicly accountable enterprises. In compliance with this requirement, the Bank has developed accounting policies in accordance with International Financial Reporting Standards (IFRS).

The Bank's mandate under the *Bank of Canada Act* is to promote the economic and financial welfare of Canada. The Bank's activities and operations are undertaken in support of this mandate and not with the objective of generating revenue or profits.

The Bank's four core areas of responsibility are the following:

- **Monetary policy:** The Bank conducts monetary policy to preserve the value of money by keeping inflation low, stable and predictable.
- **Financial system:** The Bank promotes safe, sound and efficient financial systems, within Canada and internationally, and conducts transactions in financial markets in support of these objectives.
- **Funds management:** The Bank provides funds management services for the Government of Canada, the Bank itself and other clients. The Bank is the fiscal agent for the government, providing treasury-management services and administering and advising on the public debt and foreign exchange reserves.
- **Currency:** The Bank designs, issues and distributes Canada's bank notes, oversees the note distribution system and ensures a supply of quality bank notes that are readily accepted and secure against counterfeiting.

The corporate administration function supports the management of the Bank's human resources, operations and strategic initiatives as well as the stewardship of financial, physical, information and technology assets.

The Bank has the exclusive right to issue Canadian bank notes, and the face value of these bank notes is a significant liability on the Bank's balance sheet. The Bank invests part of the proceeds from issuing bank notes into Government of Canada securities and Canada Mortgage Bonds acquired on a non-competitive basis in the primary market. The Bank also uses part of these proceeds to execute its responsibilities for its monetary policy and financial system functions.

The interest income generated from the assets backing the bank notes in circulation (net of bank note production and distribution costs) is referred to as seigniorage. It provides a stable and constant source of funding for the Bank's operations, which enables the Bank to function independently of government appropriations. Seigniorage revenue is used to fund operations and reserves. Net income is remitted to the Receiver General for Canada in accordance with the requirements of the *Bank of Canada Act*.

## 2. Basis of preparation

## Compliance with International Financial Reporting Standards

These financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board.

The Board of Directors approved the financial statements on February 19, 2021.

### Fiscal agent and custodial activities

Responsibility for the operational management of the Government of Canada's financial assets and liabilities is borne jointly by the Bank (as fiscal agent for the Government of Canada) and the Department of Finance Canada. In this role as fiscal agent, the Bank provides transactional and administrative support to the Government of Canada in certain areas, consistent with the requirements of section 24 of the *Bank of Canada Act*. As fiscal agent for the Government of Canada, the Bank does not bear the risks and rewards of the related financial assets and liabilities. These assets, liabilities and related revenues and expenses are not included in the financial statements of the Bank, except for the costs incurred by the Bank to fulfill its fiscal-agent role, as discussed in Note 17.

Securities safekeeping and other custodial services are provided to foreign central banks, international organizations and other government-related entities. Under the terms governing these services, the Bank is indemnified against losses. Any assets and income that are managed under these services are excluded from the Bank's financial statements because they are not assets or income of the Bank.

### Measurement base

The financial statements have been prepared on a historical cost basis, except for the following items:

- financial instruments classified (or designated) and measured at fair value through profit or loss (FVTPL);
- the Bank's shares in the Bank for International Settlements (BIS), which are designated and measured at fair value through other comprehensive income (FVOCI); and
- the net defined-benefit liability/asset of employee benefit plans, which is recognized as the net of the fair value of plan assets and the present value of the

defined-benefit obligations.

### **Functional and presentation currency**

The Bank's functional and presentation currency is the Canadian dollar. The amounts in the notes to the financial statements of the Bank are in millions of Canadian dollars, unless otherwise stated.

### **Significant accounting policies**

This section contains the Bank's accounting policies that relate to the financial statements as a whole. When an accounting policy is applicable to a specific note to the financial statements, the policy and related disclosures are provided within that note.

#### Revenue recognition

- Interest revenue is recognized in net income using the effective interest method.
- Dividend revenue from the Bank's investment in BIS shares is recognized as dividends are declared.
- Other revenue is recognized in net income as it is earned, when it can be reliably measured and when collectability is probable.

#### Foreign currencies

Investment income and expenses denominated in foreign currencies are translated into Canadian dollars at the exchange rate in effect at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the exchange rate prevailing at the end of the reporting period. The resulting foreign exchange gains and losses are included in *Other revenue*. Gains or losses on equity investments classified as FVOCI, including those related to the exchange rate, are recognized in other comprehensive income.

#### Impairment of non-financial assets

Non-financial assets, including *Property and equipment*, *Intangible assets* and *Right-of-use leased assets* are reviewed annually for indicators of impairment and whenever events or changes in circumstances indicate that the carrying amount exceeds their recoverable amount.

Intangible assets under development are assessed for impairment annually.

Key accounting judgments, estimates and assumptions

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, and other related information.

The Bank based its assumptions and estimates on the information available when these financial statements were prepared. Existing circumstances and assumptions about future developments may change, however, in response to market fluctuations or circumstances that are beyond the control of the Bank. In such cases, the impact will be recognized in the financial statements of a future reporting period.

Judgments, estimates and underlying assumptions are reviewed for appropriateness and consistent application on an ongoing basis. Revisions to accounting estimates are recognized in the reporting period in which the estimates are revised and in any future reporting periods affected. Significant judgment and estimates are used in the measurement of financial instruments (Note 3C) and employee benefits (Note 14).

Current changes to IFRS

No new or amended standards were adopted by the Bank in 2020 that had a significant impact on its financial statements.

Future changes to IFRS

There are currently no new or amended standards issued but not yet effective that are expected to have a significant impact on the Bank's financial statements.

### **3. Financial instruments**

#### **A) Accounting policy**

##### **Recognition and derecognition**

The Bank accounts for all financial instruments using settlement-date accounting. Financial assets and liabilities are recorded when the Bank becomes party to the contractual provisions of the instruments. Financial instruments are initially recognized at fair value plus transaction costs, if any.

The Bank derecognizes a financial asset when it considers that substantially all the risks and rewards of the asset have been transferred or when the contractual rights to the cash flows of the financial asset expire. The Bank does not derecognize collateral pledged by the Bank under standard repurchase agreements and securities-lending transactions since the Bank retains substantially all risks and rewards on the basis of the predetermined repurchase price. The Bank derecognizes financial liabilities when the Bank's obligations are discharged, are cancelled or expire.

## Classification and measurement

**The Bank's financial instruments are classified and subsequently measured as follows:**

Financial instrument	Classification and subsequent measurement	Carrying value	Fair value
<b>Financial assets</b>			
<b>Cash and foreign deposits</b>	Amortized cost	6.5	*
<b>Loans and receivables</b>			
<b>Securities purchased under resale agreements</b>	Amortized cost	155,317.6	155,459.4

<b>Securities sold under repurchase agreements</b>	Amortized cost	<b>3,000.8</b>	<b>*</b>
<b>Derivatives—Indemnity agreements with the Government of Canada</b>	FVTPL	<b>29.3</b>	<b>29.3</b>
<b>Other financial liabilities</b>	Amortized cost	<b>659.1</b>	<b>*</b>
<hr/> <p><b>*</b> Approximates carrying value due to their nature or term to maturity</p> <hr/>			

### ***Financial assets at amortized cost***

The Bank's financial assets at amortized cost are primarily debt instruments with cash flows consisting solely of payments of principal and interest. The Bank's objective is to hold the financial assets in order to collect contractual cash flows. Interest income is

calculated by applying the effective interest rate to the gross carrying amount of financial assets, unless a financial asset has become credit-impaired, in which case interest revenue is calculated by applying the effective interest rate to its amortized cost net of the expected credit loss (ECL) provision.

*Cash and foreign deposits* is composed of cash on hand and highly liquid demand deposits in foreign currencies with other central banks or international financial institutions. They are principally held for cash flow management purposes and are managed by collecting contractual cash flows.

*Securities purchased under resale agreements (SPRAs), advances to members of Payments Canada, other receivables, Government of Canada treasury bills, Government of Canada bonds—primary market, Canada Mortgage Bonds and provincial money market securities* are debt instruments that are managed by collecting contractual cash flows. They are measured at amortized cost using the effective interest method less any ECLs.<sup>1</sup> Additional disclosure for SPRAs can be found in Note 5.

### ***Financial assets designated at FVTPL***

*Government of Canada bonds—secondary market, real-return bonds, provincial bonds and corporate bonds* are debt instruments whose business objective is achieved by both collecting contractual cashflows and selling financial assets. The Bank has elected to irrevocably designate these at FVTPL in order to reduce the accounting mismatch arising from the derivative-related indemnity agreement on each of these instruments. Changes in fair value as well as any gains or losses realized on disposal are recognized in income (loss). Amounts relating to fair value changes and realized gains and losses can be found in Note 3D. The Bank has also elected to present interest income and expense resulting from these instruments separate from net gains and losses. Interest is calculated using the effective interest method.

The Bank operates a securities-lending program for provincial bonds purchased under the Provincial Bond Purchase Program (PBPP). The Bank enters into arrangements whereby it lends securities against non-cash collateral, with the agreement to receive the securities back at a future date, thereby retaining substantially all the risks and rewards of ownership. As a result, the securities do not qualify for derecognition and remain on the statement of financial position.

***Financial assets designated at FVOCI***

The Bank holds 9,441 BIS shares (9,441 BIS shares as at December 31, 2019), which are held as part of its functions as a central bank and are long-standing in nature.

Ownership of BIS shares is limited to central banks, and new shares can be acquired only following an invitation to subscribe extended by the BIS Board of Directors. The shares are non-transferable unless prior written consent is obtained from the BIS. The Bank's business model is to hold these shares to enable its participation as a member of the BIS.

The shares in the BIS are not held for trading. They are managed by collecting dividend payments. Unrealized changes in the fair value are recognized in other comprehensive income and accumulated in the investment revaluation reserve in *Equity*. Dividends are recognized in net income, as they represent a return on equity and not a return of invested capital to shareholders.

***Financial liabilities at face value***

*Bank notes in circulation* represents those bank notes that have been produced and issued for use in the economy. Bank notes in circulation are non-interest-bearing liabilities and are due on demand. They are recorded at face value. The fair value of bank notes in circulation approximates their carrying value.

***Financial liabilities at amortized cost***

*Deposits* is composed of deposits by the Government of Canada, members of Payments Canada and other financial institutions, and also includes unclaimed balances remitted to the Bank in accordance with governing legislation. The Bank pays interest on the deposits for the Government of Canada, members of Payments Canada and some other financial institutions at short-term market rates. The Bank pays interest on unclaimed balances in accordance with governing legislation. Interest expense on deposits is included in net income. Deposits are managed by paying contractual cash flows and are measured at amortized cost using the effective interest method.

*Securities sold under repurchase agreements* stems from the Bank's Securities Repo Operations program, which was introduced in July 2020 to support liquidity in the securities financing market. Under this program, the Bank enters into sale and

repurchase agreements for Government of Canada securities, whereby the securities are sold and repurchased the following day. Under such transactions, the Bank retains substantially all the risks and rewards associated with the assets. Where financial assets are not eligible for derecognition, the transfers are viewed as secured financing transactions, with any consideration received resulting in a corresponding liability measured at amortized cost. The Bank is not entitled to use these financial assets for any other purpose.

*Other financial liabilities* consists of surplus payable to the Receiver General for Canada, accounts payable and accrued liabilities.

### ***Financial liabilities at FVTPL***

*Derivatives—Indemnity agreements with the Government of Canada* (the derivatives) consists of agreements that were entered into to address market fluctuation as a result of the Bank's operations under the Government of Canada Bond Purchase Program (GBPP), the PBPP and the Corporate Bond Purchase Program (CBPP). Realized losses resulting from the sale of assets within these programs are indemnified by the Government of Canada, whereas realized gains on disposal will be remitted. Given that the value of the agreements responds to changes in the underlying prices of the instruments in the programs, the indemnity agreements are considered derivatives. These agreements are initially recognized and are carried at their fair value on the statement of financial position with changes in fair value recognized in income (loss). The fair value of these derivatives is calculated as the difference between the fair value of the related instruments and their amortized cost.

### ***Financial guarantee contracts—Indemnity agreements with the Government of Canada***

The Bank entered into separate agreements with the Government of Canada that indemnify the Bank in the event that credit losses are incurred on securities purchased under the Provincial Money Market Purchase Program or under the Commercial Paper Purchase Program. These agreements are recognized as stand-alone financial guarantee contracts and are accounted for under International Accounting Standard 37. An asset will be recognized only when there is an issuer default and the Bank has filed a reimbursement claim with the government.

### **Impairment and write-off**

The Bank calculates ECLs on investments in debt instruments that are measured at amortized cost, on foreign currency swap facility commitments and on the Large Value Transfer System (LVTS) guarantee. The amount of ECLs is updated at each reporting date to reflect changes in credit risk since initial recognition. The ECL is estimated as the difference between all contractual cash flows that are due to the Bank in accordance with the contract and all the cash flows that the Bank expects to receive, discounted at the original effective interest rate. The ECL model is a function of the probability of default, loss given default and exposure at default of an issuer, discounted to the reporting date using the effective interest rate. Instruments were grouped on a collective basis by counterparty and instrument type for evaluation of the ECL.

### ***Key concepts***

#### **Probability of default**

The likelihood that a borrower will not be able to meet its scheduled repayments.

#### **Loss given default**

The amount of the loss the Bank would likely incur when a borrower defaults on a loan, which is expressed as a percentage of exposure at default.

#### **Low credit risk**

The Bank has applied the low credit risk practical expedient available under IFRS 9. The Bank considers a financial asset to have low credit risk when the asset's creditworthiness is judged to be "investment grade," which the Bank broadly defines as equivalent to BBB or higher.

#### **Significant increase in credit risk**

In assessing whether the credit risk on a financial asset has increased significantly since initial recognition, the Bank compares the risk of a default occurring on the financial asset as at the reporting date with the risk as at the date of initial recognition. The Bank considers many factors when assessing a financial asset for a significant increase in credit risk, including but not limited to (1) an actual or expected significant deterioration in the financial asset's credit rating; (2) significant deterioration in external market indicators of credit risk for a financial asset; and (3)

existing or forecast adverse changes in the business, financial, regulatory, technological or economic environment of the counterparty that result in a significant decrease in the counterparty's ability to meet its debt obligations.

The Bank regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate. The Bank assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the reporting date and monitoring activities do not indicate the presence of a trigger event. The Bank corroborates external credit ratings with an internal analysis performed annually, with quarterly updates. The Bank also performs continuous monitoring of relevant economic and financial developments.

### **Credit-impaired**

A financial asset is deemed credit-impaired when one or more events with a detrimental impact on its estimated future cash flows have occurred. Such events could include but are not limited to (1) significant financial difficulty of the counterparty; (2) a breach of contract, such as a default or past-due event; and (3) the likelihood that the counterparty will enter bankruptcy or other financial reorganization.

### **Default**

The Bank will consider a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Bank in full, without recourse by the Bank, such as realizing collateral (if held).

The ECL model applies a three-stage approach to measure the allowance for credit losses. Expected credit losses are measured based on the stage assignment of the financial instrument:

#### **Stage 1**

Financial assets are categorized as Stage 1 when first recognized. The Bank records an allowance for 12-month ECLs in profit or loss, and interest revenue is calculated on the gross carrying amount of the asset.

#### **Stage 2**

Financial assets are categorized as Stage 2 when they have experienced a significant increase in credit risk since initial recognition. The Bank records an allowance for lifetime ECLs, and interest revenue is calculated on the gross carrying amount of the asset.

### Stage 3

Financial assets are categorized as Stage 3 when they are considered credit-impaired. The Bank records an allowance for lifetime ECLs, and interest revenue is calculated based on the net carrying amount of the asset (gross carrying amount less the loss allowance), rather than on its gross carrying amount.

## **Fair value of financial instruments**

Financial instruments are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements:

### Level 1

Unadjusted quoted prices in active markets for identical assets or liabilities, which represent actual and regularly occurring arm's-length market transactions

### Level 2

Inputs other than quoted prices included in Level 1, which are observable for the assets or liabilities either directly (e.g., prices for similar instruments, prices from inactive markets) or indirectly (e.g., interest rates, credit spreads)

### Level 3

Unobservable inputs for the assets or liabilities that are not based on observable market data as a result of inactive markets (e.g., market participant assumptions)

Estimated fair values for financial instruments are designed to approximate amounts for which the instruments could be exchanged in a current arm's-length transaction between knowledgeable, willing parties. The fair value hierarchy requires the use of observable market inputs wherever such inputs exist. In measuring fair value, a financial instrument is classified at the lowest level of the hierarchy for which a significant input has been considered. Transfers may occur between levels of the fair value hierarchy as a result of changes in market activity or the availability of quoted

market prices or observable inputs. The Bank's policy is to record transfers of assets and liabilities between the different levels of the fair value hierarchy using the fair values as at the end of each reporting period.

## B) Financial instruments introduced during the year

In response to the economic impacts of the pandemic, the Bank has undertaken a number of actions to support the Canadian economy and financial system. These include establishing several asset purchase programs to increase liquidity in core funding markets and measures to provide liquidity to financial institutions.

<b>Asset / Program / Effective date</b>	<b>Description</b>	<b>Objective</b>
Securities purchased under resale agreements / March 12, 2020	Expansion of duration to include terms of approximately 1, 3, 6, 12 or 24 months (previously from 1 to 90 business days)	To support interbank funding
Bankers' acceptances / Bankers' Acceptance Purchase Facility / March 13, 2020 (discontinued on October 26, 2020)	Secondary market purchases of one-month bankers' acceptances issued and guaranteed by Canadian banks	To support one of Canada's core funding markets and to provide a key source of financing for small and medium-sized corporate borrowers
Canada Mortgage Bonds / Canada Mortgage Bond Purchase Program / March 17, 2020 (discontinued on October 29, 2020)	Secondary market purchases of Canada Mortgage Bonds with the Canada Mortgage and Housing Corporation	To support market functioning

Advances to members of Payments Canada / Standing Term Liquidity Facility / March 19, 2020	Advances to eligible financial institutions in need of temporary liquidity support	To complement the Bank's current tools for the provision of liquidity and to strengthen the Bank's role as lender of last resort
Provincial money market securities / Provincial Money Market Purchase Program / March 24, 2020 (discontinued on November 13, 2020)	Asset purchase facility that acquires provincially issued money market securities (treasury bills and short-term promissory notes) through the primary issuance market	To support the liquidity and efficiency of provincial government funding markets
Government of Canada bonds—secondary market (including real-return bonds) / Government of Canada Bond Purchase Program / April 1, 2020	Purchases of Government of Canada nominal and real-return bonds in the secondary market to support market functioning and provide monetary stimulus	Initially, the objective was to address strains in the Government of Canada bond market (including the real-return bond market) and to enhance the effectiveness of all other actions taken to support core funding markets. As market conditions evolved, these operations continued as a tool of monetary policy stimulus.
Commercial paper / Commercial Paper Purchase Program / April 2, 2020	Primary and secondary market purchases of commercial paper, including asset-backed commercial paper, issued by Canadian firms, municipalities and provincial agencies	To help support the flow of credit to the economy by alleviating strains in Canada's commercial paper markets
Securities purchased under resale agreements / Contingent Term Repo Facility / April 6, 2020	Funding for a one-month term to eligible counterparties against securities issued or guaranteed by the Government of Canada or a provincial government	To counter any severe market-wide liquidity stresses and to support the stability of the Canadian financial system

Provincial bonds / Provincial Bond Purchase Program / May 7, 2020	Secondary market purchases of Canadian- dollar-denominated bonds issued by all provinces and fully guaranteed provincial agencies	To support the liquidity and efficiency of provincial government funding markets
Corporate bonds / Corporate Bond Purchase Program / May 26, 2020	Purchases of bonds through a tender process in the secondary market	To support the liquidity and proper functioning of the corporate debt market
Securities sold under repurchase agreements / Securities Repo Operations program / July 27, 2020	A temporary source of Government of Canada nominal bonds and treasury bills to primary dealers by making a portion of the Bank's holdings of these securities available on an overnight basis through daily repurchase operations	To support liquidity in the securities financing market and to foster the well- functioning of the Government of Canada securities market

## C) Accounting estimates and judgments

### Expected credit losses

Judgment is required when determining the appropriate amount of ECLs to recognize. The measurement of ECLs reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information that is available without undue cost or effort at the reporting date regarding past events, current conditions and forecasts of future economic conditions.

In certain cases, the Bank may consider that events are a significant increase in credit risk as opposed to a true default. In making this assessment, the Bank considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Bank's counterparties operate, and consideration of various external sources of actual and forecast economic information.

Significant judgments required for measuring ECLs include the following:

- determining criteria for assessing whether a financial asset is considered to have low credit risk;
- determining criteria for assessing what constitutes a significant increase in credit risk; and
- determining appropriate data inputs for probability of default, loss given default and exposure at default.

All of the Bank's financial assets subject to impairment assessments are Stage 1 and are considered to have low credit risk. There were no transfers of financial instruments between stages during the reporting period. The Bank did not record any ECLs on these financial instruments as at December 31, 2020 (\$nil as at December 31, 2019) because the amount was deemed not to be material. By its nature, the ECL estimates are subject to measurement uncertainty. The Bank will continue to review its judgments and assumptions to assess whether the ECL estimate has changed. There are no significant past due or impaired amounts as at December 31, 2020 (\$nil as at December 31, 2019).

### ***Financial guarantees and loan commitments***

This category includes the Bank's foreign currency swap facility commitments and the LVTS guarantee. For guarantees and commitments made by the Bank that are not currently in use but where there is a clear indication that use can reasonably be expected within the next 12 months, the Bank would assess the guarantee or commitment for any impairment on a case-by-case basis based on expected drawings.

For a financial guarantee contract, since the Bank is required to make payments only in the event of a default by the counterparty in accordance with the terms of the instrument that is guaranteed, the ECL allowance would be calculated as the expected payments to reimburse the holder for a credit loss that it incurs, less any amounts that the Bank expects to receive from the holder, the counterparty or any other party.

For undrawn loan commitments, the ECL is the present value of the difference between the contractual cash flows that are paid out by the Bank if the holder of the loan commitment draws down the loan and the cash flows that the Bank expects to recover.

As at December 31, 2020, no ECL had been recorded as none of the Bank's financial guarantees and commitments had been drawn upon, nor does the Bank expect that any will be drawn upon within the next 12 months (\$nil as at December 31, 2019).

### **Fair value of financial instruments**

Where observable prices or inputs are not available, judgment is required to determine fair values by assessing other relevant sources of information. The fair value of the BIS shares is determined using significant unobservable inputs (Level 3). It is estimated as 70 percent of the Bank's interest in the net asset value of the BIS at the reporting date. This is consistent with the methodology applied by the BIS for all share repurchases since the 1970s and was further endorsed in a decision by the International Court at The Hague relating to a share repurchase by the BIS in 2001 (the last share repurchase conducted by the BIS). The Bank expects the value of the BIS shares to fluctuate over time in conjunction with the strength of the BIS balance sheet and exchange rates.

## **D) Supporting information**

### **Fair value of financial instruments**

Below are the valuation methods used to determine the fair value of each financial instrument and its associated level in the fair value hierarchy. There were no changes to valuation methods during the period.

#### ***Derivatives—Indemnity agreements with the Government of Canada***

Calculated using market prices derived from observable inputs (Level 2). The fair value of the derivatives amounts to \$29.3 million and is calculated as the difference between the underlying prices of the instruments in the programs and their

underlying amortized cost. The Bank expects the value of the derivatives to fluctuate over time, moving opposite to the fair value movements of the underlying instruments.

***Cash and foreign deposits, other receivables, deposits, securities sold under repurchase agreements and other financial liabilities***

Carrying amount (approximation to fair value assumed due to their nature or term to maturity)

***SPRAs, Government of Canada treasury bills, Government of Canada bonds, Canada Mortgage Bonds, provincial money market securities, real-return bonds, provincial bonds, securities lent or sold under repurchase agreements and corporate bonds***

Prices observed in active markets (Level 1), or market prices derived from observable inputs (Level 2)

The following table shows the fair value and carrying value of the Bank's financial assets classified in accordance with the fair value hierarchy described above.

<b>As at December 31, 2020</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Fair value</b>	<b>Carrying value</b>
<b>Securities purchased under resale agreements</b>	-	155,459.4	-	155,459.4	155,317.6
<b>Government of Canada treasury bills</b>	47,725.6	4,056.3	-	51,781.9	51,750.2
<b>Government of Canada bonds—primary market</b>	113,188.9	135.0	-	113,323.9	105,979.0
<b>Government of Canada bonds—secondary market</b>	198,138.3	699.3	-	198,837.6	198,837.6
<b>Real-return bonds</b>	3,183.0	348.5	-	3,531.5	3,531.5
<b>Canada Mortgage Bonds</b>	9,775.9	-	-	9,775.9	9,660.9
<b>Provincial bonds</b>	11,548.7	2,670.9	-	14,219.6	14,219.6
<b>Corporate bonds</b>	13.7	166.3	-	180.0	180.0
<b>Securities lent or sold under repurchase agreements</b>	3,683.3	92.7	-	3,776.0	3,775.8

<b>Provincial money market securities</b>	-	3,346.4	-	3,346.4	3,344.1
<b>Shares in the Bank for International Settlements</b>	-	-	486.1	486.1	486.1
<b>Total</b>	<b>387,257.4</b>	<b>166,974.8</b>	<b>486.1</b>	<b>554,718.3</b>	<b>547,082.4</b>

The table below presents the comparative fair value and carrying value as at December 31, 2019.

<b>As at December 31, 2019</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Fair value</b>	<b>Carrying value</b>
<b>Securities purchased under resale agreements</b>	-	15,516.5	-	15,516.5	15,516.5
<b>Government of Canada treasury bills</b>	23,364.6	-	-	23,364.6	23,367.4
<b>Government of Canada bonds—primary market</b>	82,450.0	170.2	-	82,620.2	79,030.5
<b>Government of Canada bonds—secondary market</b>	-	-	-	-	-
<b>Real-return bonds</b>	-	-	-	-	-
<b>Canada Mortgage Bonds</b>	516.3	-	-	516.3	510.7
<b>Provincial bonds</b>	-	-	-	-	-
<b>Corporate bonds</b>	-	-	-	-	-
<b>Securities lent or sold under repurchase agreements</b>	-	-	-	-	-
<b>Provincial money market securities</b>	-	-	-	-	-
<b>Shares in the Bank for International Settlements</b>	-	-	438.3	438.3	438.3
<b>Total</b>	<b>106,330.9</b>	<b>15,686.7</b>	<b>438.3</b>	<b>122,455.9</b>	<b>118,863.4</b>

As a result of changes in market activity in 2020, an amount of \$5,372.4 million was transferred from Level 1 to Level 2, while an amount of \$7,066.1 million was transferred from Level 2 to Level 1. There were no transfers between levels in the

2019 period.

## Securities lent or sold under repurchase agreements

The following table shows the fair value and carrying value of the securities that were lent or sold under repurchase agreements.

	December 31, 2020		December 31, 2019	
	Fair value	Carrying value	Fair value	Carrying value
<b>Provincial bonds lent</b>	771.8	771.8	-	-
<b>Securities sold under repurchase agreements</b>				
<b>Government of Canada treasury bills</b>	694.0	693.8	-	-
<b>Government of Canada bonds—secondary market</b>	2,310.2	2,310.2	-	-
<b>Total</b>	<b>3,776.0</b>	<b>3,775.8</b>	-	-

The fair value of collateral held for provincial bonds lent totalled \$810.7 million, representing 105.0 percent of the fair value of the securities loaned.

The liabilities associated with the Government of Canada treasury bills and Government of Canada bonds—secondary market that were sold under repurchase agreements are equal to \$3,000.8 million.

## BIS shares

The following table reconciles the opening and closing balances of the BIS shares.

<b>As at December 31</b>	<b>2020</b>	<b>2019</b>
<b>Opening balance at beginning of year</b>	438.3	433.3
<b>Change in fair value recorded through other comprehensive income</b>	39.5	28.5
<b>Change due to Special Drawing Rights exchange differences recorded through other comprehensive income</b>	8.3	(23.5)

<b>Closing balance at end of year</b>	<b>486.1</b>	<b>438.3</b>
---------------------------------------	--------------	--------------

## Derivatives—Indemnity agreements with the Government of Canada

	<b>Amortized cost</b>	<b>Related asset  Fair value</b>	<b>Derivatives— Indemnity agreements with the Government of Canada  Fair value</b>	<b>Derivative asset position  Fair value</b>	<b>Derivative liability position  Fair value</b>
<b>Government of Canada bonds— secondary market</b>	204,728.2	204,679.3	48.9	367.3	318.4
<b>Provincial bonds</b>	14,915.9	14,991.4	(75.5)	0.1	75.6
<b>Corporate bonds</b>	177.3	180.0	(2.7)	-	2.7
<b>Balance as at December 31, 2020</b>	<b>219,821.4</b>	<b>219,850.7</b>	<b>(29.3)</b>	<b>367.4</b>	<b>396.7</b>

## Net gains and losses on financial instruments carried at FVTPL

Unrealized gains and losses arising from financial assets carried at FVTPL are equal to the fair value of the derivatives liability shown in the table above. The \$29.3 million net unrealized gains on the financial assets were offset by net unrealized losses of \$29.3 million on the derivatives. Realized gains and losses in the year were immaterial. The net gains and losses for the year ended December 31, 2020, is nil.

## 4. Cash and foreign deposits

### Composition of cash and foreign deposits

<b>As at December 31</b>	<b>2020</b>	<b>2019</b>
<b>Cash on hand</b>	2.0	1.8
<b>Foreign deposits</b>	4.5	4.6
<b>Total cash and foreign deposits</b>	<b>6.5</b>	<b>6.4</b>

The Bank's policies on classifying and measuring financial instruments are discussed in Note 3A, and related financial risks are discussed in Note 6.

## 5. Loans and receivables

*Loans and receivables* is composed primarily of SPRAs and, if any, advances to members of Payments Canada. These transactions are obligations of Payments Canada members and are fully collateralized in accordance with publicly disclosed collateral eligibility and margin requirements. The remaining amount is composed primarily of trade receivables.

*Securities purchased under resale agreements* is composed of overnight repurchase (repo) operations and term repo operations, in which the Bank purchases securities from designated counterparties with an agreement to sell them back at a predetermined price on an agreed transaction date. The overnight repo matures the next business day and is used to support the effective implementation of monetary policy by withdrawing intraday liquidity, thereby reinforcing the Bank's target for the overnight rate. The term repo matures up to 24 months after issuance and is used to manage the balance sheet and to promote the orderly functioning of Canadian financial markets. Balances outstanding as at December 31, 2020, consist of agreements with original terms to maturity ranging from 168 to 724 days (from 28 to 84 days as at December 31, 2019).

*Advances to members of Payments Canada* are collateralized liquidity loans made under either the Bank's Standing Liquidity Facility (SLF) or the Standing Term Liquidity Facility (STLF) to facilitate overnight settlement in the LVTS or to help financial institutions better manage their liquidity risks and continue to provide their customers with access to credit. Advances under the SLF mature the next business day. Advances under the STLF mature in up to 30 days. As at December 31, 2020, there were no advances to members of Payments Canada (\$nil as at December 31, 2019).

The Bank's policies on classifying and measuring financial instruments are discussed in Note 3A, and related financial risks are discussed in Note 6.

## 6. Financial risk management

The Bank maintains a comprehensive risk management and control framework to manage its risks. The Executive Council oversees enterprise risk management and the implementation of sound management processes to safeguard the Bank. The Board of Directors has an oversight role in the Bank's performance of risk management.

The Bank is exposed to financial risks associated with its financial instruments, including credit, market and liquidity risks. The Financial Risk Office monitors and reports on the financial risks related to the Bank's statement of financial position. The following is a description of those risks and how the Bank manages its exposure to them.

### ***Credit risk***

Credit risk is the possibility of loss due to the failure of a counterparty or guarantor to meet payment obligations in accordance with agreed-upon terms.

The Bank is exposed to credit risk through its cash and foreign deposits, investments and advances to members of Payments Canada, and through market transactions in the form of SPRAs and loans of securities. The maximum exposure to credit risk is estimated to be the carrying value of those items. The Bank is also exposed to credit risk through its guarantee of the LVTs and through the execution of foreign currency contracts. The maximum exposure under guarantees and foreign currency contracts is discussed in Note 15. There are no past due or impaired amounts.

### **Concentration of credit risk**

The Bank's investment portfolio represents 72 percent of the carrying value of its total assets (86 percent as at December 31, 2019). The credit risk associated with the Bank's investment portfolio is low because the securities held are primarily direct obligations of the Government of Canada or are fully guaranteed by the Government of Canada, which holds a credit rating of AAA with most credit agencies and has no history of default.

SPRAs represent 28 percent of the carrying value of the Bank's total assets (13 percent as at December 31, 2019). In the unlikely event of a counterparty default, collateral can be liquidated to offset credit exposure. Collateral is taken in accordance with the Bank's publicly disclosed eligibility criteria and margin requirements, which

are accessible on its website. Strict eligibility criteria are set for all collateral, and the credit quality of collateral is managed through a set of restrictions based on asset type, term to maturity and credit attributes, including ratings of the securities pledged. In 2020, the Bank accepted additional types of investment grade collateral including securities issued by municipalities, other public sector entities, corporate debt securities and asset-backed commercial paper. Margin requirements for new collateral are commensurate with their risk. The Bank monitors collateral positions regularly and requires counterparties to pledge additional collateral as risk increases.

The fair value of collateral pledged to the Bank against these financial instruments at the end of the reporting period is presented below.

As at December 31	2020		2019	
	\$	%	\$	%
<b>Securities issued or guaranteed by the Government of Canada</b>	4,154.0	2.5	2,993.2	18.7
<b>Securities issued or guaranteed by a provincial government</b>	27,855.5	17.1	12,552.0	78.4
<b>Securities guaranteed by Crown corporations of the Government of Canada</b>	-	-	460.3	2.9
<b>Securities issued by a municipality</b>	218.7	0.2	-	-
<b>Other public sector securities</b>	1,282.3	0.8	-	-
<b>Corporate debt securities</b>	113,969.2	69.9	-	-
<b>Asset-backed commercial paper</b>	15,473.6	9.5	-	-
<b>Total fair value of collateral pledged to the Bank</b>	<b>162,953.3</b>	<b>100.0</b>	<b>16,005.5</b>	<b>100.0</b>
<b>Carrying value of collateralized securities</b>	<b>155,317.6</b>	<b>100.0</b>	<b>15,516.5</b>	<b>100.0</b>
<b>Collateral as a percentage of carrying value</b>		<b>104.9</b>		<b>103.2</b>

### **Market risk**

Market risk is the potential for adverse changes in the fair value or future cash flows of a financial instrument as a result of changes in market variables, such as interest rates, foreign exchange rates and market prices. It is composed of interest rate risk, currency risk and other price risk.

### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates.

The Bank's exposure to interest rate risk arises from fluctuations in the future flows of cash and foreign deposits held by the Bank and deposits held at the Bank by other institutions because these instruments are subject to variable interest rates. The Bank also carries interest rate risk associated with fluctuations in future cash flows from real-return bonds, which are linked to inflation. The remainder of the Bank's financial assets and liabilities have either fixed interest rates or are non-interest-bearing.

The table below shows the effect of an increase (decrease) in interest rates of 25 basis points on the interest expense or revenue on deposits of both the Government of Canada and members of Payments Canada and real-return bonds, which represents substantially all the Bank's interest rate risk exposure.

<b>For the year ended December 31</b>	<b>2020</b>	<b>2019</b>
<b>Interest expense on Government of Canada deposits</b>	226.6 / (226.6)	57.9 / (57.9)
<b>Interest expense on members of Payments Canada deposits</b>	512.8 / (512.8)	0.7 / (0.7)
<b>Interest expense on other deposits</b>	20.4 / (20.4)	6.8 / (6.8)
<b>Interest revenue on real-return bonds</b>	3.0 / (3.0)	- / -

### Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The currency risk is not considered to be significant because the Bank's net foreign currency exposure relative to its total assets is small.

The Bank is exposed to currency risk primarily by holding shares in the BIS. These shares are denominated in Special Drawing Rights (SDRs). The SDR serves as the unit of account for the International Monetary Fund, and its value is based on a basket of five major currencies: the euro, the US dollar, the British pound, the Japanese yen and the Chinese renminbi. SDRs are translated into Canadian-dollar equivalents at the rates prevailing on the date when the fair value is determined.

### **Other price risk**

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from changes in interest and exchange rates).

The Bank is exposed to other price risk through its investment in the BIS. As discussed in Note 3C, the fair value of these shares is estimated based on the net asset value of the BIS, less a discount of 30 percent. Accordingly, the fair value fluctuations of these shares reflect movements in the net asset value of the BIS and exchange rates.

In the second quarter of 2020, with the operationalization of the GBPP, CBPP and PBPP, the Bank began holding securities at FVTPL, exposing itself to fluctuations in market prices. However, all securities measured at FVTPL are fully indemnified for gains and losses beyond amortized cost. Fluctuations in market prices for the FVTPL instruments are offset by equivalent fair value fluctuations of the derivatives. Therefore, the Bank bears no net price risk related to the securities.

### ***Liquidity risk***

Liquidity risk is the potential for loss if the Bank is unable to meet its financial obligations as they become due. Liabilities with no fixed maturity include bank notes in circulation and Government of Canada deposits, with the remaining liabilities (deposits of members of Payments Canada, securities sold under repurchase agreements [if any] and other financial liabilities) due within 90 days. The Bank is also exposed to liquidity risk through its guarantee of the LVTs, as discussed in Note 15.

Historical experience has shown that bank notes in circulation provide a stable source of long-term funding for the Bank. In the event of an unexpected redemption of bank notes or a significant withdrawal from deposits of the Government of Canada or

members of Payments Canada, the Bank can settle the obligation by means of several tools, including the sale of highly liquid investments backing those liabilities.

The Bank is the ultimate source of liquid funds to the Canadian financial system and has the power and operational ability to create Canadian-dollar liquidity in unlimited amounts at any time. This power is exercised within the Bank's commitment to keeping inflation low, stable and predictable.

The following table presents a maturity analysis of the Bank's financial assets and liabilities. The balances in this table do not correspond to the balances in the statement of financial position because the table presents all cash flows on an undiscounted basis. When the amount payable is not fixed, the amount disclosed is determined by reference to the conditions existing at the end of the reporting period.

<b>As at December 31, 2020</b>	<b>Due on demand</b>	<b>Within 90 days</b>	<b>Within 4 to 12 months</b>	<b>Within 1 to 5 years</b>	<b>In more than 5 years</b>	<b>Total</b>

## 7. Property and equipment

*Property and equipment* consists of land, buildings, computer equipment, other equipment and related projects in progress.

### Accounting policy

*Property and equipment* is measured at cost less accumulated depreciation, except for land, which is not depreciated, and is net of any related impairment losses. Projects in progress are measured at cost but are not depreciated until the asset is available for

use. Cost includes expenditures that are directly attributable to the acquisition or construction of the asset. When major components of an item of property and equipment have different useful lives, they are accounted for as separate items of property and equipment. Upon replacing a significant part of an item of property and equipment, the carrying amount of the replaced part is derecognized and any gain or loss is recognized in depreciation. Depreciation is calculated using the straight-line method and is applied over the estimated useful life of the assets. The estimated useful life and the depreciation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The estimated useful life for major asset classes are as follows:

<b>Buildings</b>	15 to 65 years
<b>Computer equipment</b>	3 to 10 years
<b>Other equipment</b>	5 to 20 years

Leasehold improvements (included in *Other equipment*) are depreciated over the lesser of their useful life or the term of the lease.

## 8. Intangible assets

Intangible assets are identifiable non-monetary assets without physical substance that represent future economic benefits and are controlled by the Bank. The Bank's intangible assets consist of computer software that has been developed internally or acquired externally.

### Accounting policy

Costs that are directly associated with the internal development of identifiable software are recognized as intangible assets if, in management's best estimate, the asset can technically be completed and will provide a future economic benefit to the Bank. Subsequent expenditure is capitalized only when it increases the future economic benefits in the specific asset.

Computer software assets that are acquired by the Bank and have a finite useful life are measured at cost less accumulated amortization and impairment losses.

Amortization is calculated using the straight-line method and is applied over the estimated useful life of the assets, which may vary from 3 to 15 years. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

## 9. Right-of-use leased assets and lease liabilities

The Bank's leases primarily consist of leases for rental of data centre facilities in support of the Bank's business resilience posture and rental of office space for regional offices (Halifax, Montréal, Toronto, Calgary and Vancouver).

### Accounting policy

At the inception of a contract, the Bank assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Right-of-use leased assets are depreciated over the lesser of the end of the useful life of the right-of-use leased asset or the lease term on a straight-line basis. The lease term includes periods covered by an option to extend if the Bank is reasonably certain to exercise that option. The right-of-use leased asset may be remeasured from time to time to reflect certain remeasurements in the related lease liability and impairment losses, if any.

Management has elected to apply the practical expedient not to recognize right-of-use leased assets and lease liabilities for short-term leases that have a term of 12 months or less and leases of low-value assets. The payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

## 10. Other assets

*Other assets* is composed of bank note inventory (production materials, including the polymer substrate and ink), any net defined-benefit asset related to the Bank of Canada Pension Plan (Pension Plan), and all other non-financial assets, which are primarily prepaid expenses.

## Accounting policy

Bank note inventory is measured at the lower of the cost or the net realizable value. The cost to produce finished bank notes is expensed as incurred. Prepaid expenses are recorded at cost and expensed in the period which the services are received.

The accounting policy for the net defined-benefit asset related to the Bank of Canada Pension Plan is discussed in Note 14.

## Supporting information

### Composition of other assets

As at December 31	Note	2020	2019
Bank note inventory		14.8	8.5
Net defined-benefit asset	14	-	34.1
All other assets		26.7	24.1
<b>Total other assets</b>		<b>41.5</b>	<b>66.7</b>

## 11. Bank notes in circulation

*Bank notes in circulation* represents those bank notes that have been produced and issued for use in the economy. They are non-interest-bearing liabilities and are due on demand.

### Accounting policy

Bank notes in circulation are recorded at face value. The fair value of bank notes in circulation approximates their carrying value. The Bank's assessment of related financial risks is discussed in Note 6.

### Supporting information

In accordance with the *Bank of Canada Act*, the Bank has the sole authority to issue bank notes for circulation in Canada. Currently, bank notes are issued in denominations of \$5, \$10, \$20, \$50 and \$100. Other bank notes, as described in the table below, are denominations that are still in circulation but are no longer issued.

**The face value of notes in circulation, presented by denomination, is as follows:**

As at December 31	2020	2019
<b>\$5</b>	1,513.1	1,469.6
<b>\$10</b>	1,727.0	1,665.6
<b>\$20</b>	20,916.5	18,770.5
<b>\$50</b>	20,784.0	17,456.5
<b>\$100</b>	61,013.9	52,730.8
<b>Other bank notes</b>	970.5	1,001.3
<b>Total bank notes in circulation</b>	<b>106,925.0</b>	<b>93,094.3</b>

## 12. Deposits

Deposits from the Government of Canada consist of \$60,559.0 million for operational balances and \$20,000.0 million held for the prudential liquidity-management plan (\$1,765.6 million and \$20,000.0 million, respectively, as at December 31, 2019).

*Other deposits* is composed of deposits from financial market infrastructure institutions, other central banks, government institutions, foreign official institutions and unclaimed balances. Some of the deposits are interest bearing depending on the agreement between the Bank and the depositor. All balances are due on demand.

The Bank's policies on classifying and measuring financial instruments are discussed in Note 3A, and related financial risks are discussed in Note 6.

### 13. Other liabilities

Other liabilities consists of surplus payable to the Receiver General for Canada, the net defined-benefit liability for both the pension benefit plans and other employee benefit plans, lease liabilities, accounts payable, accrued liabilities, and provisions.

### Accounting policy

The Bank's policies on classifying and measuring financial instruments (accounts payable and accrued liabilities, within the context of *Other liabilities*) are discussed in Note 3A, and related financial risks are discussed in Note 6. The Bank's accounting policy for the net defined-benefit liability of the Bank of Canada Pension Supplementary Arrangement and other employee benefit plans is discussed in Note 14. The Bank's accounting policy for the lease liabilities is discussed in Note 9.

A provision is recognized if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably as at the date of the statement of financial position and it is probable that an outflow of economic benefits will be required to settle the obligation.

## Surplus payable to the Receiver General for Canada

The following table reconciles the opening and closing balances of the *Surplus payable to the Receiver General for Canada*, which is based on the requirements of section 27 of the *Bank of Canada Act* and the Bank's remittance agreement with the Minister of Finance, as discussed in Note 16.

<b>As at December 31</b>	<b>2020</b>	<b>2019</b>
<b>Opening balance at beginning of year</b>	368.3	225.9
<b>Surplus for the Receiver General for Canada</b>	1,772.9	1,168.3
<b>Remittance of surplus to the Receiver General for Canada</b>	(1,568.3)	(1,025.9)
<b>Closing balance at end of year</b>	<b>572.9</b>	<b>368.3</b>

## 14. Employee benefits

The Bank provides employees with several employee benefit plans, consisting of short-term employee benefits, post-employment benefits, long-term employee benefits and termination benefits. The Bank of Canada Pension Plan (Pension Plan) was established under the provisions of the *Bank of Canada Act*, 1934, and has remained in accordance with the *Bank of Canada Act* as subsequently amended. The Pension Plan is a registered pension plan as defined in the *Income Tax Act* and, consequently, is not subject to income taxes. The Bank of Canada Supplementary Pension Arrangement (SPA) was created to pay pension benefits to Bank employees with annual earnings above the amount covered by the Pension Plan, as provided under the *Income Tax Act*. The Supplementary Trust Fund, which holds and invests the funds of the SPA, is a retirement compensation arrangement as defined in the *Income Tax Act*.

The Bank is the administrator of the pension plans. The Bank's Board of Directors has established a Pension Committee and has delegated to it the responsibility for carrying out the Bank's duties as administrator of the plans, including adherence to the guidelines established in the Statement of Investment Policy and Procedures (SIPP) for each plan, which are approved annually by the Board. A separate trust fund has been established for each plan to receive and invest contributions and pay benefits due under the plans. The assets cannot be used for any purpose other than payment of pension benefits and related administration fees.

The Bank also sponsors other benefit plans provided to employees, specifically the unfunded post-employment defined-benefit plans for life insurance and eligible health and dental benefits, the unfunded long-service benefit program for employees hired before January 1, 2003, and the long-term disability program.

## Accounting policy

Employee benefits refer to all forms of consideration given by an entity in exchange for services rendered by employees or for the termination of employment as described in the following table:

Category	Description	Measurement and recognition
----------	-------------	-----------------------------

\* The interest rate used is based on those of AA-rated Canadian corporate bonds with terms to maturity approximating the estimated duration of the obligation.

† The current service costs and the benefit obligations of the plans are actuarially determined using the projected unit credit method.

Short-term employee benefits	<p>Benefits expected to settle wholly within 12 months of when the service was rendered.</p> <p>Refers to salary, bonus, annual leave, health benefits, dental care and statutory benefits.</p>	The liability and related expense are recognized in the reporting period in which they occur and are measured on an undiscounted basis.
------------------------------	---	---

\* The interest rate used is based on those of AA-rated Canadian corporate bonds with terms to maturity approximating the estimated duration of the obligation.

† The current service costs and the benefit obligations of the plans are actuarially determined using the projected unit credit method.

Post-employment benefits	Benefits payable after the completion of employment (pension plans and other benefits).  Refers to the Pension Plan, the SPA, life insurance and eligible health and dental benefits, and the long-service benefit program.	<p>The net asset or liability recognized is composed of the present value of the defined-benefit obligation less the fair value of plan assets, when applicable.</p> <p>The defined-benefit obligation is calculated by discounting estimated future cash flows using an appropriate interest rate.</p> <p>* The plan assets of funded benefit plans are measured at their fair value at the end of the reporting period.</p> <p>The expense recognized in net income for the reporting period consists of current service costs, past service costs, net interest on the net defined-benefit liability/asset, gains or losses arising on settlement (if applicable) and administrative costs. Net interest is calculated by applying the discount rate to the net defined-benefit liability/asset.</p> <p>Remeasurements <sup>†</sup> are recognized immediately in other comprehensive income in the reporting period in which they occur and are accumulated in <i>Equity</i>. Remeasurements comprise actuarial gains and losses, the return on plan assets and the effect of the asset ceiling (if applicable). They exclude amounts included in net interest on the net defined-benefit liability/asset. Past service costs are recognized at the earlier of</p>
*	The interest rate used is based on those of AA-rated Canadian corporate bonds with terms to maturity approximating the estimated duration of the obligation.	
†	The current service costs and the benefit obligations of the plans are actuarially determined using the projected unit credit method.	

		when the plan amendment or curtailment occurs or when the Bank recognizes related restructuring costs or termination benefits.
Long-term employee benefits	Refers to the long-term disability program.	<p>The liability recognized is the present value of the defined-benefit obligation, calculated by discounting estimated future cash flows using an appropriate interest rate. <sup>*</sup></p> <p>The expense recognized in net income for the reporting period consists of current service costs, interest costs, remeasurement gains and losses, and past service costs. The current service costs and the benefit obligations of the plan are actuarially determined on an event-driven accounting basis.</p>
Termination benefits	Benefits provided in exchange for termination.	The liability and related expense is recognized in net income at the earlier of when the Bank can no longer withdraw the offer of the termination benefit or when the Bank recognizes any related restructuring costs.

<sup>\*</sup> The interest rate used is based on those of AA-rated Canadian corporate bonds with terms to maturity approximating the estimated duration of the obligation.

<sup>†</sup> The current service costs and the benefit obligations of the plans are actuarially determined using the projected unit credit method.

## Accounting estimates and judgments

The cost of the defined-benefit pension plans, the cost of other benefit plans and the present value of the benefit obligations are determined using actuarial valuations. An actuarial valuation involves using various assumptions determined by management and reviewed annually by the actuary that may differ from future developments. The significant assumptions used are as follows (on a weighted-average basis):

As at December 31	Pension benefit plans		Other benefit plans	
	2020	2019	2020	2019
<b>Defined-benefit obligation</b>				

<b>Discount rate <sup>*</sup></b>	2.60%	3.20%	2.53%	3.15%
<b>Inflation rate <sup>†</sup></b>	2.00%	2.00%	n.a.	n.a.
<b>Rate of compensation increase</b>	2.75% + merit	3.00% + merit	2.75% + merit	3.00% + merit
<b>Mortality table <sup>‡</sup></b>	CPM2014Publ (scale CPM-B)	CPM2014Publ (scale CPM-B)	CPM2014Publ (scale CPM-B)	CPM2014Publ (scale CPM-B)
<b>Benefit plan expense</b>				
<b>Discount rate <sup>*</sup></b>	3.20%	4.00%	3.15%	3.90%
<b>Inflation rate <sup>†</sup></b>	2.00%	2.00%	n.a.	n.a.
<b>Rate of compensation increase</b>	2.75% + merit	3.00% + merit	2.75% + merit	3.00% + merit
<b>Assumed medical cost trend</b>				
<b>Initial medical cost trend rate</b>	n.a.	n.a.	4.94%	5.07%
<b>Ultimate medical cost trend rate</b>	n.a.	n.a.	4.00%	4.00%
<b>Year that the rate reaches the ultimate trend rate</b>	n.a.	n.a.	2040	2040

<sup>\*</sup> The parameter most subject to change is the discount rate, which is determined by reference to Canadian AA-rated corporate bonds with terms to maturity approximating the duration of the obligation. The weighted-average duration of the defined-benefit obligation is approximately 20 to 21 years for the pension benefit plans (18 to 20 years in 2019) and 5 to 25 years for the other benefit plans (6 to 23 years in 2019).

<sup>†</sup> *Other benefit plans* does not include an inflation rate adjustment since the adjustment is a component of the assumed medical cost trend.

<sup>‡</sup> In 2020, the assumption for life expectancy for the plan valuations assumes that a male member reaching 60 will live for approximately 28 years (28 years in 2019) and a female member approximately 30 years (30 years in 2019).

The mortality assumptions used in the plan valuations are based on tables issued by the Canadian Institute of Actuaries. Actuarial adjustments to the tables are applied when recommended by the plan's actuaries.

The most recent actuarial valuation for the purposes of funding the pension plans was done as at January 1, 2020, and the next required valuation will be as at January 1, 2021. Benefits are based on years of service and the average full-time salary for the best five consecutive years. They are indexed to reflect changes in the consumer price index on the date payments begin and each January 1 thereafter.

### Sensitivity analysis

Because of the complexities involved in the valuation and its long-term nature, a defined-benefit obligation is highly sensitive to changes in these assumptions.

The following table outlines the potential impact of changes in certain key assumptions used in measuring the defined-benefit obligations and benefit costs.

	Increase (decrease) in obligation <sup>*</sup>	
	Pension benefit plans	Other benefit plans
<b>Discount rate</b>		
<b>Impact of 0.10% increase</b>	(47.3)	(4.0)
<b>Impact of 0.10% decrease</b>	48.6	4.1
<b>Rate of compensation increase</b>		
<b>Impact of 0.10% increase</b>	10.4	0.4
<b>Impact of 0.10% decrease</b>	(10.2)	(0.4)
<b>Mortality rate</b>		
<b>Impact of 10.00% increase</b>	(59.4)	(3.6)
<b>Impact of 10.00% decrease</b>	66.6	4.3
<b>Inflation rate</b>		
<b>Impact of 0.10% increase</b>	41.1	n.a.
<b>Impact of 0.10% decrease</b>	(40.2)	n.a.

<b>Medical cost trend rates</b>		
<b>Impact of 1.00% increase</b>	n.a.	37.3
<b>Impact of 1.00% decrease</b>	n.a.	(28.8)
<p><b>* —</b> The sensitivity analysis presented in this table is hypothetical and should be used with caution. The analysis is based on a change in assumptions while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. The method and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous year.</p>		

## Supporting information

**The changes to the net defined-benefit asset (liability) for the year are as follows:**

	<b>Pension benefit plans</b>		<b>Other benefit plans</b>	
	<b>2020</b>	<b>2019</b>	<b>2020</b>	<b>2019</b>
<b>Fair value of plan assets</b>				
<b>Fair value of plan assets as at January 1</b>	2,038.6	1,826.1	-	-

<b>Net defined-benefit asset (liability)</b>	<b>(283.8)</b>	<b>(63.2)</b>	<b>(210.9)</b>	<b>(190.5)</b>
<b>Benefit plan expenses recognized in net income</b>	72.3	45.5	12.1	12.6
<b>Remeasurement losses recognized in other comprehensive income</b>	173.3	108.6	18.0	24.8

\* The return on plan assets excludes interest income and includes a \$2.5 million unrealized gain (\$17.4 million unrealized loss in 2019) due to changes in foreign exchange rates.

**The defined-benefit obligation, presented by membership category, is as follows:**

As at December 31	Pension benefit plans		Other benefit plans	
	2020	2019	2020	2019
<b>Membership category</b>				
<b>Active members</b>	1,129.5	901.5	106.3	93.0
<b>Pensioners</b>	1,216.6	1,081.4	104.6	97.5
<b>Deferred members</b>	138.2	118.9	-	-
<b>Total defined-benefit obligation</b>	<b>2,484.3</b>	<b>2,101.8</b>	<b>210.9</b>	<b>190.5</b>

**The cumulative remeasurement losses recognized in other comprehensive income are as follows:**

As at December 31	Pension benefit plans		Other benefit plans	
	2020	2019	2020	2019
<b>Cumulative remeasurement gains (losses), beginning of year</b>	(287.1)	(178.5)	(21.0)	3.8
<b>Remeasurement gains (losses) recognized in current year</b>	(173.3)	(108.6)	(18.0)	(24.8)
<b>Cumulative remeasurement gains (losses), end of year</b>	<b>(460.4)</b>	<b>(287.1)</b>	<b>(39.0)</b>	<b>(21.0)</b>

**Pension benefit plans asset mix**

The pension plans' SIPPs require that investments be held in a diversified mix of asset types and also set out requirements for investment eligibility. The diversification of assets serves to decrease the variations in the expected return performance of the portfolio. For the Pension Plan, the current practice is to conduct an asset-liability modelling (ALM) study every three years. The ALM assists the Pension Committee in establishing an asset allocation that is consistent with the Pension Plan's objectives and the Bank's risk tolerance. The latest ALM report was prepared and presented to the Pension Committee in September 2018.

The pension plans' investments are subject to credit, liquidity and market risks, the latter being the most significant risk due to the volatility of the assets. The pension plans' liabilities are calculated using a discount rate determined by reference to Canadian AA-rated corporate bonds; a rate of return on plan assets inferior to the discount rate would result in a deficit. Requirements for asset diversification and investment eligibility serve as basic risk management tools for the investment portfolio.

**The pension benefit plans assets consist of the following:**

As at December 31	2020				2019			
	Quoted	Unquoted	Total	%	Quoted	Unquoted	Total	%
<b>Money market instruments</b>	17.2	-	<b>17.2</b>	0.8	22.3	-	<b>22.3</b>	1.1
<b>Equity instruments</b>								
<b>Canadian equity funds</b>	410.4	-	<b>410.4</b>	18.7	349.4	-	<b>349.4</b>	17.1
<b>Foreign equity funds</b>	591.7	-	<b>591.7</b>	26.9	556.4	-	<b>556.4</b>	27.3
<b>Debt instruments <sup>*</sup></b>

<b>Total</b>	<b>1,790.4</b>	<b>410.1</b>	<b>2,200.5</b>	<b>100.0</b>	<b>1,657.3</b>	<b>381.3</b>	<b>2,038.6</b>	<b>100.0</b>

\* Debt instruments consist of fixed-income securities and inflation-linked assets.

## Total cash payments

Regulations governing federally regulated pension plans establish certain solvency requirements calculated under the assumption that the plans are terminated at the valuation date. In addition, actuarial valuations for funding purposes are required annually under the *Pension Benefits Standards Act*. The actuarial valuations of the Pension Plan completed as at January 1, 2020, reflect the Pension Plan's performance in 2019.

On a solvency basis (which assesses the Pension Plan on the assumption that it would be terminated on the date of the valuation), the funding status of the Pension Plan had a solvency ratio of 107 percent (112 percent as at January 1, 2019). The valuation reported a solvency surplus of \$121.8 million and a three-year average solvency surplus of \$151.7 million (\$179.2 million and \$130.2 million, respectively, for the valuation completed at January 1, 2019).

On a going-concern basis (which assesses the Pension Plan over the long term on the assumption that it will operate indefinitely), the Pension Plan had a funding ratio of 135 percent (140 percent as at January 1, 2019). The valuation reported a going-concern surplus of \$479.7 million (\$507.6 million for the valuation completed at January 1, 2019).

The funding requirements of the Pension Plan are determined by the going-concern and solvency valuation results. Given the Pension Plan's January 1, 2020, funding and solvency ratios, regulations under the ITA prohibited the Bank from making further contributions after June 2019. Bank contributions to the Pension Plan will resume depending on the results of actuarial valuations in subsequent years, with the next one scheduled for January 1, 2021. Contributions in 2021 will be based on the actuarial valuation as at January 1, 2021. The Bank anticipates that, if the results of 2020 are in line with actuarial assumptions, its contributions will resume in 2021. Employer contributions to the Pension Plan in 2021 are expected to be \$33.3 million. The SPA is funded through both employer and employee contributions. Employer contributions are based on the actuarial determination of the Bank's accounting expense for the plan. Since January 1, 2020, the SPA's employer contribution is determined according to a going-concern valuation, which is the sum of the employer's share of the going-concern current service cost and the special payments necessary to amortize any deficit on the going-concern basis. Employer contributions to the SPA in 2021 are expected to be \$25.0 million.

## 15. Commitments, contingencies and guarantees

### ***Commitments***

A commitment is an enforceable, legally binding agreement to make a payment in the future for the purchase of goods or services. These amounts are not recorded in the statement of financial position because the Bank has not yet received the goods or services from the supplier. The amounts below are what the Bank has committed to pay based on current expected contract prices.

Commitments related to *Property and equipment*, *Intangible assets* and *Lease liabilities* are discussed in Note 7, Note 8 and Note 9, respectively.

The Bank has a long-term contract with an outside service provider for retail debt services. The Bank signed an amended agreement effective November 1, 2019, until December 31, 2023. As at December 31, 2020, payments totalling \$53.9 million remained. The contract is modular, with a flexible pricing framework.

The Bank has long-term contracts with outside service providers for business recovery and data centre services, which expire between 2022 and 2026. As at December 31, 2020, fixed payments totalling \$22.6 million remained.

**As at December 31, 2020, the total minimum payments for long-term contracts, other than right-of-use leased assets, property and equipment, and intangible assets, were as follows:**

<b>As at December 31</b>	<b>2020</b>
<b>Due within one year</b>	120.6
<b>Due within one to three years</b>	49.8
<b>Due within three to five years</b>	7.1
<b>Thereafter</b>	0.5
<b>Total minimum payments</b>	<b>178.0</b>

### Foreign currency swap facilities

**The Bank is a counterparty to several foreign currency swap facilities as follows:**

<b>As at December 31, 2020</b>	<b>Denominated in</b>	<b>Expiry date</b>	<b>Maximum available</b>
<b>Bilateral liquidity swap facilities with other central banks</b>			
<b>Bank of England</b>	British pounds	No expiry	Unlimited
<b>Bank of Japan</b>	Japanese yen	No expiry	Unlimited
<b>Bank of Korea</b>	South Korean won	No expiry	Unlimited
<b>European Central Bank</b>	euros	No expiry	Unlimited

<b>Federal Reserve Bank of New York</b>	US dollars	No expiry	Unlimited
<b>Swiss National Bank</b>	Swiss francs	No expiry	Unlimited
<b>People's Bank of China</b>	Chinese renminbi	January 7, 2026	200,000.0
<b>Other swap facilities</b>			
<b>Exchange Fund Account of Canada</b>	Canadian dollars	No expiry	Unlimited
<b>Federal Reserve Bank of New York</b>	US dollars	December 12, 2021	2,000.0
<b>Banco de México</b>	Canadian dollars	December 12, 2021	1,000.0
<b>Bank for International Settlements</b>	Canadian dollars	No expiry	100.0

### **Bilateral liquidity swap facilities with other central banks**

The bilateral liquidity swap facilities were established to provide liquidity in each jurisdiction in any of their currencies, should market conditions warrant.

These facilities can be structured as either a Canadian-dollar liquidity swap or a foreign-currency liquidity swap arrangement and can be initiated by either party. The exchange rate applicable to the swap facilities is based on the prevailing market spot exchange rate as mutually agreed upon by the parties.

### **Other swap facilities**

The other swap facilities established with the Federal Reserve Bank of New York and with the Banco de México expire on December 12, 2021, but are subject to annual renewal.

The Bank is party to a standing foreign currency swap facility with the Exchange Fund Account of Canada. There is no stated maximum amount under this agreement.

The Bank is also party to a swap facility with the BIS for operational purposes. Transactions executed under this agreement generally have a duration of one business day. The BIS swap was accessed for operational purposes in both 2020 and 2019.

None of the other liquidity or other swaps was accessed, by either party, in 2020 or 2019. No related commitments existed as at December 31, 2020 (\$nil as at December 31, 2019).

## **Contingencies**

Contingent liabilities are possible obligations that could result from uncertain future events outside the Bank's control, or present obligations not recognized because the amount cannot be adequately measured or payment is not probable. Contingent liabilities are not recognized in the financial statements but are disclosed if significant.

### **BIS shares**

The 9,441 shares in the BIS have a nominal value of SDR5,000 per share, of which 25 percent (i.e., SDR1,250) is paid up. The balance of SDR3,750 is callable at three months' notice by a decision of the BIS Board of Directors. The Canadian equivalent of this contingent liability was \$64.9 million as at December 31, 2020 (\$63.6 million as at December 31, 2019) based on prevailing exchange rates.

## **Guarantees**

### **LVTS guarantee**

The LVTS is a large-value payment system, owned and operated by Payments Canada. Any deposit-taking financial institution that is a member of Payments Canada can participate in the LVTS, provided that it maintains a settlement account at the Bank of Canada, has the facilities to pledge collateral for LVTS purposes, and meets certain technical requirements. The system's risk-control features, which include caps on net debit positions and collateral to secure the use of overdraft credit, are sufficient to permit the system to obtain the necessary liquidity to settle in the event of the failure of the single LVTS participant with the largest possible net amount owing. The Bank guarantees to provide this liquidity, and, in the event of a single-participant failure, the liquidity loan will be fully collateralized.

In the extremely unlikely event that there were defaults by more than one participant during the LVTS operating day in an aggregate amount greater than the largest possible net amount owing by a single participant, there would not likely be enough

collateral to secure the amount of liquidity that the Bank would need to provide to settle the system. This could result in the Bank having unsecured claims on the defaulting participants in excess of the amount of collateral pledged to the Bank to cover the liquidity loans. The Bank would have the right, as an unsecured creditor, to recover any amount of its liquidity loan that was unpaid.

Since the guarantee would be called upon only if a series of extremely low-probability events were to occur, the likelihood of the guarantee being executed is remote. Furthermore, the Bank's maximum exposure under this guarantee is not determinable because the extent of exposure would be based on the unique circumstances of the failure event. No amount has ever been paid as a result of this guarantee. For that reason, no amount is or has ever been provided for in the liabilities of the Bank.

### **Other indemnification agreements**

In the normal course of operations, the Bank includes indemnification clauses within agreements with various counterparties in transactions such as service agreements, software licences, leases and purchases of goods. Under these agreements, the Bank agrees to indemnify the counterparty against loss or liability arising from acts or omissions of the Bank in relation to the agreement. The nature of the indemnification agreements prevents the Bank from making a reasonable estimate of the maximum potential amount that the Bank would be required to pay. No indemnification amount has ever been paid under such agreements.

### **Insurance**

The Bank does not normally insure against direct risks of loss to the Bank, except for potential liabilities to third parties, and when there is a legal or contractual obligation to carry insurance.

Any costs arising from risks not insured are recognized in the financial statements if, due to a past event, the Bank has a present legal or constructive obligation that can be estimated reliably as at the reporting date and it is probable that an outflow of economic benefits will be required to settle the obligation.

## **16. Equity**

The Bank manages its capital to ensure compliance with the *Bank of Canada Act*. There were no other externally imposed capital requirements at the end of the reporting year.

**The Bank's equity is composed of the following elements, as shown below.**

As at December 31	2020	2019
Share capital	5.0	5.0
Statutory reserve	25.0	25.0
Special reserve	100.0	100.0
Investment revaluation reserve	448.1	400.3
Retained earnings	-	-
<b>Total equity</b>	<b>578.1</b>	<b>530.3</b>

## Share capital

The authorized capital of the Bank is \$5.0 million divided into 100,000 shares with a par value of \$50 each. The shares are fully paid and have been issued to the Minister of Finance, who holds them on behalf of the Government of Canada.

## Statutory reserve

The statutory reserve was accumulated out of net income until it reached the stipulated maximum amount of \$25.0 million in 1955, consistent with the requirement of section 27 of the *Bank of Canada Act*.

## Special reserve

Following an amendment to section 27.1 of the *Bank of Canada Act*, the special reserve was created in 2007 to offset potential unrealized valuation losses due to changes in the fair value of the Bank's investment portfolio. An initial amount of \$100 million was established at that time, and the reserve is subject to a ceiling of \$400 million.

The amount held in the special reserve is reviewed regularly for appropriateness using value-at-risk analysis and scenario-based stress tests and may be amended, pursuant to a resolution passed by the Board of Directors.

### **Investment revaluation reserve**

The investment revaluation reserve represents the net unrealized fair value gains of the Bank's financial assets classified and measured at FVOCI, which consist solely of the Bank's investment in the BIS. The total reserve was \$448.1 million as at December 31, 2020 (\$400.3 million as at December 31, 2019).

### **Retained earnings**

The net income of the Bank, less any allocation to reserves, is considered ascertained surplus and is transferred to the Receiver General for Canada, consistent with the requirement of section 27 of the *Bank of Canada Act*. Changes to the ascertained surplus payable to the Receiver General for Canada are presented in Note 13.

The Bank's remittance agreement with the Minister of Finance was designed to enable the Bank to manage its equity requirements with consideration given to the volatility arising from fair value changes and remeasurements, which are recorded in other comprehensive income. This agreement allows the Bank to withhold from its remittance to the Receiver General for Canada any increase in cumulative net unrealized losses on financial assets that are classified and measured at FVOCI, unrealized remeasurements of the net defined-benefit liability/asset on defined-benefit plans, and other unrealized or non-cash losses arising from changes in accounting standards or legislation. Any decrease in previously withheld cumulative net unrealized non-cash losses is added to the remittance.

During 2020, the Bank withheld \$191.3 million from its remittances to the Receiver General for Canada (in 2019, withheld \$133.4 million). As at December 31, 2020, \$379.5 million in withheld remittances was outstanding (\$188.3 million as at December 31, 2019).

## **17. Related parties**

Persons or entities are considered related parties to the Bank if they are:

- under common ownership to the Government of Canada;
- a post-employment benefit plan for the benefit of Bank employees; or
- a member of key management personnel, which includes members of the Executive Council, Senior Management Council or the Board of Directors, and their families.

## **Government of Canada**

The Bank is related in terms of common ownership to all Government of Canada departments, agencies and Crown corporations. To achieve its monetary policy objectives, the Bank maintains a position of structural and functional independence from the Government of Canada through its ability to fund its own operations without external assistance, and through its management and governance.

In the normal course of its operations, the Bank enters into transactions with related parties, and material transactions and balances are presented in these financial statements. Not all transactions between the Bank and government-related entities have been disclosed, as permitted by the partial exemption available to wholly owned government entities in International Accounting Standard 24 *Related Party Disclosures* (IAS 24).

The Bank provides funds management, fiscal agent and banking services to the Government of Canada, as mandated by the *Bank of Canada Act*, and does not recover the costs of these services.

## **Bank of Canada Pension Plan**

The Bank provides management, investment and administrative support to the Pension Plan. Services in the amount of \$1.2 million (\$1.0 million in 2019) were fully recovered from the Pension Plan in 2020. Disclosures related to the Bank's post-employment benefit plans are included in Note 14.

## **Key management personnel and compensation**

The key management personnel responsible for planning, directing and controlling the activities of the Bank are the members of the Executive Council, the Senior Management Council and the Board of Directors. The number of key management

personnel as at December 31, 2020, was 28 (29 in 2019).

The compensation of key management personnel is presented in the following table. Short-term employee benefits and post-employment benefits apply to Bank employees only.

<b>As at December 31</b>	<b>2020</b>	<b>2019</b>
<b>Salary and short-term employee benefits</b>	6.2	6.4
<b>Post-employment benefits</b>	2.6	2.0
<b>Directors' fees</b>	0.3	0.3
<b>Total compensation</b>	<b>9.1</b>	<b>8.7</b>

There were no other long-term employee benefit costs or termination benefits related to key management personnel in 2020 (\$nil in 2019).

## DEPARTMENT OF TRANSPORT

### AERONAUTICS ACT

#### ***Interim Order Respecting Certain Requirements for Civil Aviation Due to COVID-19, No. 26***

Whereas the annexed *Interim Order Respecting Certain Requirements for Civil Aviation Due to COVID-19, No. 26* is required to deal with a significant risk, direct or indirect, to aviation safety or the safety of the public;

Whereas the provisions of the annexed Order may be contained in a regulation made pursuant to sections 4.71 <sup>a</sup> and 4.9 <sup>b</sup>, paragraphs 7.6(1)(a) <sup>c</sup> and (b) <sup>d</sup> and section 7.7 <sup>e</sup> of the *Aeronautics Act* <sup>f</sup>;

Whereas, pursuant to subsection 6.41(1.1) <sup>g</sup> of the *Aeronautics Act* <sup>f</sup>, the Minister of Transport authorized the Deputy Minister of Transport to make an interim order that contains any provision that may be contained in a regulation made under Part I of that Act to deal with a significant risk, direct or indirect, to aviation safety or the safety of the public;

And whereas, pursuant to subsection 6.41(1.2) <sup>g</sup> of that Act, the Deputy Minister of Transport has consulted with the persons and organizations that that Minister considers appropriate in the circumstances before making the annexed Order;

Therefore, the Deputy Minister of Transport, pursuant to subsection 6.41(1.1) <sup>g</sup> of the *Aeronautics Act* <sup>f</sup>, makes the annexed *Interim Order Respecting Certain Requirements for Civil Aviation Due to COVID-19, No. 26*.

Ottawa, April 11, 2021

Michael Keenan

Deputy Minister of Transport

## Interim Order Respecting Certain Requirements for Civil Aviation Due to COVID-19, No. 26

### Interpretation

#### Definitions

**1 (1)** The following definitions apply in this Interim Order.

#### ***aerodrome security personnel***

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*personnel de sûreté de l'aérodrome*)

#### ***air carrier***

means any person who operates a commercial air service under Subpart 1, 3, 4 or 5 of Part VII of the Regulations. (*transporteur aérien*)

#### ***checked baggage***

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*bagages enregistrés*)

**COVID-19**

means the coronavirus disease 2019. (*COVID-19*)

**COVID-19 molecular test**

means a COVID-19 screening or diagnostic test carried out by an accredited laboratory, including a test performed using the method of polymerase chain reaction (PCR) or reverse transcription loop-mediated isothermal amplification (RT-LAMP). (*essai moléculaire relatif à la COVID-19*)

**document of entitlement**

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*document d'autorisation*)

**elevated temperature**

means a temperature within the range set out in the standards. (*température élevée*)

**foreign national**

means a person who is not a Canadian citizen or a permanent resident and includes a stateless person. (*étranger*)

**non-passenger screening checkpoint**

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*point de contrôle des non-passagers*)

**passenger screening checkpoint**

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*point de contrôle des passagers*)

**peace officer**

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*agent de la paix*)

**Regulations**

means the *Canadian Aviation Regulations*. (*Règlement*)

**restricted area**

has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*. (*zone réglementée*)

**screening officer**

has the same meaning as in section 2 of the *Canadian Air Transport Security Authority Act*. (*agent de contrôle*)

**standards**

means the document entitled the *Transport Canada Temperature Screening Standards*, published by the Minister, as amended from time to time. (*normes*)

**Interpretation**

(2) Unless the context requires otherwise, all other words and expressions used in this Interim Order have the same meaning as in the Regulations.

**Conflict**

(3) In the event of a conflict between this Interim Order and the Regulations or the *Canadian Aviation Security Regulations, 2012*, the Interim Order prevails.

**Definition of *face mask***

(4) For the purposes of this Interim Order, a ***face mask*** means any mask, including a non-medical mask that meets all of the following requirements:

- (a) it is made of multiple layers of tightly woven materials such as cotton or linen;
- (b) it completely covers a person's nose, mouth and chin without gaping;
- (c) it can be secured to a person's head with ties or ear loops.

**Face masks — lip reading**

(5) Despite paragraph (4)(a), the portion of a face mask in front of a wearer's lips may be made of transparent material that permits lip reading if

- (a) the rest of the face mask is made of multiple layers of tightly woven materials such as cotton or linen; and
- (b) there is a tight seal between the transparent material and the rest of the face mask.

**Notification****Federal, provincial and territorial measures**

**2 (1)** A private operator or air carrier operating a flight between two points in Canada or a flight to Canada departing from any other country must notify every person boarding the aircraft for the flight that they may be subject to measures to prevent

the spread of COVID-19 taken by the provincial or territorial government with jurisdiction where the destination aerodrome for that flight is located or by the federal government.

### **Suitable quarantine plan and prepaid accommodation**

**(2)** A private operator or air carrier operating a flight to Canada departing from any other country must notify every person before the person boards the aircraft for the flight that they may be required, under an order made under section 58 of the *Quarantine Act*, to provide, before boarding the aircraft, to the Minister of Health by the electronic means specified by that Minister a suitable quarantine plan and evidence of prepaid accommodation arrangements that enables them to remain in quarantine at a government-authorized accommodation for a three-day period that begins on the day on which they enter Canada or, if the person is not required under that order to provide the plan and the evidence, their contact information. The private operator or air carrier must also notify every person that they may be liable to a fine, if this requirement applies to them and they fail to comply with it.

### **False declarations**

**(3)** A private operator or air carrier operating a flight between two points in Canada or a flight to Canada departing from any other country must notify every person boarding the aircraft for the flight that they may be liable to a monetary penalty if they provide a confirmation referred to in subsection 3(1) that they know to be false or misleading.

## **Confirmation**

### **Federal, provincial and territorial measures**

**3 (1)** Before boarding an aircraft for a flight between two points in Canada or a flight to Canada departing from any other country, every person must confirm to the private operator or air carrier operating the flight that they understand that they may be subject to a measure to prevent the spread of COVID-19 taken by the provincial or territorial government with jurisdiction where the destination aerodrome for that flight is located or by the federal government.

### **False declaration**

**(2)** A person must not provide a confirmation referred to in subsection (1) that they know to be false or misleading.

### **Exception**

**(3)** A competent adult may provide a confirmation referred to in subsection (1) on behalf of a person who is not a competent adult.

### **Prohibition**

**4** A private operator or air carrier operating a flight between two points in Canada or a flight to Canada departing from any other country must not permit a person to board the aircraft for the flight if the person is a competent adult and does not provide a confirmation that they are required to provide under subsection 3(1).

## **Foreign Nationals**

### **Prohibition**

**5** A private operator or air carrier must not permit a foreign national to board an aircraft for a flight that the private operator or air carrier operates to Canada departing from any other country.

### **Exception**

**6** Section 5 does not apply to a foreign national who is permitted to enter Canada under an order made under section 58 of the *Quarantine Act*.

## **Health Check**

### **Non-application**

**7** Sections 8 to 10 do not apply to either of the following persons:

- (a)** a crew member;
- (b)** a person who provides a medical certificate certifying that any symptoms referred to in subsection 8(1) that they are exhibiting are not related to COVID-19.

### **Health check**

**8 (1)** A private operator or air carrier must conduct a health check of every person boarding an aircraft for a flight that the private operator or air carrier operates by asking questions to verify whether they exhibit any of the following symptoms:

- (a)** a fever;
- (b)** a cough;
- (c)** breathing difficulties.

### **Notification**

**(2)** A private operator or air carrier must notify every person boarding an aircraft for a flight that the private operator or air carrier operates that the person may not be permitted to board the aircraft if

- (a)** they exhibit a fever and a cough or a fever and breathing difficulties, unless they provide a medical certificate certifying that their symptoms are not related to COVID-19;
- (b)** they have, or suspect that they have, COVID-19;
- (c)** they have been denied permission to board an aircraft in the previous 14 days for a medical reason related to COVID-19; or
- (d)** in the case of a flight departing in Canada, they are the subject of a mandatory quarantine order as a result of recent travel or as a result of a local or provincial public health order.

### **Confirmation**

**(3)** Every person boarding an aircraft for a flight that a private operator or air carrier operates must confirm to the private operator or air carrier that none of the following situations apply to them:

- (a)** the person has, or suspects that they have, COVID-19;
- (b)** the person has been denied permission to board an aircraft in the previous 14 days for a medical reason related to COVID-19;
- (c)** in the case of a flight departing in Canada, the person is the subject of a mandatory quarantine order as a result of recent travel or as a result of a local or provincial public health order.

**False declaration — obligation of private operator or air carrier**

**(4)** The private operator or air carrier must advise every person that they may be liable to a monetary penalty if they provide answers, with respect to the health check or a confirmation, that they know to be false or misleading.

**False declaration — obligations of person**

**(5)** A person who, under subsections (1) and (3), is subjected to a health check and is required to provide a confirmation must

**(a)** answer all questions; and

**(b)** not provide answers or a confirmation that they know to be false or misleading.

**Exception**

**(6)** A competent adult may answer all questions and provide a confirmation on behalf of a person who is not a competent adult and who, under subsections (1) and (3), is subjected to a health check and is required to give a confirmation.

**Observations — private operator or air carrier**

**(7)** During the boarding process for a flight that the private operator or air carrier operates, the private operator or air carrier must observe whether any person boarding the aircraft is exhibiting any symptoms referred to in subsection (1).

**Prohibition**

**9** A private operator or air carrier must not permit a person to board an aircraft for a flight that the private operator or air carrier operates if

**(a)** the person's answers to the health check questions indicate that they exhibit

**(i)** a fever and cough, or

**(ii)** a fever and breathing difficulties;

**(b)** the private operator or air carrier observes that, as the person is boarding, they exhibit

**(i)** a fever and cough, or

**(ii)** a fever and breathing difficulties;

**(c)** the person's confirmation under subsection 8(3) indicates that one of the situations described in paragraphs 8(3)(a), (b) or (c) applies to that person; or

**(d)** the person is a competent adult and refuses to answer any of the questions asked of them under subsection 8(1) or to give the confirmation under subsection 8(3).

### **Period of 14 days**

**10** A person who is not permitted to board an aircraft under section 9 is not permitted to board another aircraft for a period of 14 days after the refusal, unless they provide a medical certificate certifying that any symptoms referred to in subsection 8(1) that they are exhibiting are not related to COVID-19.

## **COVID-19 Molecular Test – Flights to Canada**

### **Application**

**10.1 (1)** Sections 10.2 to 10.7 apply to a private operator or air carrier operating a flight to Canada departing from any other country and to every person boarding an aircraft for such a flight.

### **Non-application**

**(2)** Sections 10.2 to 10.7 do not apply to persons who are not required under an order made under section 58 of the *Quarantine Act* to provide evidence that they received a result for a COVID-19 molecular test.

### **Notification**

**10.2** A private operator or air carrier must notify every person who intends to board an aircraft for a flight that the private operator or air carrier operates that the person may not be permitted to board the aircraft if they are unable to provide evidence that they received a result for a COVID-19 molecular test.

### **Result**

**10.3** Before boarding an aircraft for a flight, every person must provide to the private operator or air carrier operating the flight evidence that they received either

**(a)** a negative result for a COVID-19 molecular test that was performed on a specimen that was collected no more than 72 hours before the aircraft's initial scheduled departure time; or

**(b)** a positive result for such a test that was performed on a specimen that was collected at least 14 days and no more than 90 days before the aircraft's initial scheduled departure time.

### **Evidence — elements**

**10.4** Evidence of a result for a COVID-19 molecular test must include

**(a)** the person's name and date of birth;

**(b)** the name and civic address of the laboratory that administered the test;

**(c)** the date the specimen was collected and the test method used; and

**(d)** the test result.

### **False or misleading evidence**

**10.5** A person must not provide evidence of a result for a COVID-19 molecular test that they know to be false or misleading.

### **Notice to Minister**

**10.6** A private operator or air carrier that has reason to believe that a person has provided evidence of a result for a COVID-19 molecular test that is likely to be false or misleading must notify the Minister as soon as feasible of the person's name and contact information and the date and number of the person's flight.

### **Prohibition**

**10.7** A private operator or air carrier must not permit a person to board an aircraft for a flight that the private operator or air carrier operates if the person does not provide evidence that they received a result for a COVID-19 molecular test in accordance with the requirements set out in section 10.3.

## **Temperature Screening — Flights to Canada**

### **Application**

**11 (1)** Sections 12 to 19 apply to an air carrier operating a flight to Canada departing from any other country and to every person boarding an aircraft for such a flight.

### **Non-application**

**(2)** Sections 12 to 19 do not apply to either of the following persons:

- (a)** a child who is less than two years of age;
- (b)** a person who provides a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Non-application — crew member**

**(3)** Sections 12 to 15 do not apply to a crew member who underwent a temperature screening under section 22 for the duration of the shift during which the temperature screening was conducted.

### **Requirement**

**12 (1)** Subject to subsection 19(2), an air carrier must conduct a temperature screening of every person boarding an aircraft for a flight that the air carrier operates. The screening must be conducted using equipment that complies with the standards and conducted according to the procedures set out in the standards.

### **Second screening**

**(2)** The air carrier must conduct a second temperature screening if the first temperature screening indicates that the person has an elevated temperature. The second temperature screening must be conducted using equipment that complies with the standards and conducted according to the procedures set out in the standards.

### **Notification**

**13 (1)** An air carrier must notify every person boarding an aircraft for a flight that the air carrier operates that they may not be permitted to board an aircraft for a flight to Canada for a period of 14 days if the temperature screening conducted under subsection 12(2) indicates that they have an elevated temperature, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## **Confirmation**

**(2)** Before boarding an aircraft for a flight, every person must confirm to the air carrier operating the flight that they understand that they may not be permitted to board an aircraft for a flight to Canada for a period of 14 days if the temperature screening conducted under subsection 12(2) indicates that they have an elevated temperature, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## **Prohibition — elevated temperature**

**14 (1)** If the temperature screening conducted under subsection 12(2) indicates that the person has an elevated temperature, the air carrier must

**(a)** not permit the person to board the aircraft; and

**(b)** notify the person that they are not permitted to board another aircraft for a flight to Canada for a period of 14 days after the refusal, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## **Prohibition — refusal**

**(2)** If a person refuses to be subjected to a temperature screening, the air carrier must not permit the person to board the aircraft.

## **Period of 14 days**

**15** A person who is not permitted to board an aircraft under section 14 is not permitted to board another aircraft for a flight to Canada for a period of 14 days after the refusal, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## **Requirement — equipment**

**16** An air carrier must calibrate and maintain the equipment that it uses to conduct temperature screenings under subsection 12(2) to ensure that the equipment is in proper operating condition.

## **Requirement — training**

**17** An air carrier must ensure that the person using the equipment to conduct temperature screenings under subsection 12(2) has been trained to operate that equipment and interpret the data that it produces.

### **Record keeping — equipment**

**18 (1)** An air carrier must keep a record of the following information in respect of each flight it operates:

- (a)** the number of persons who were not permitted to board the aircraft under paragraph 14(1)(a);
- (b)** the date and flight number;
- (c)** the make and model of the equipment that the air carrier used to conduct the temperature screenings under subsection 12(2);
- (d)** the date and time that that equipment was last calibrated and last maintained, as well as the name of the person who performed the calibration or maintenance; and
- (e)** the results of the last calibration and the activities performed during the last maintenance of that equipment, including any corrective measures taken.

### **Record keeping — training**

**(2)** An air carrier must keep a record of the name of every person who has received training under section 17, as well as the contents of the training.

### **Retention period**

- (3)** The air carrier must
- (a)** retain the records referred to in subsection (1) for a period of at least 90 days after the day of the flight; and
  - (b)** retain the records referred to in subsection (2) for a period of at least 90 days after the day on which the person received the training.

### **Ministerial request**

**(4)** The air carrier must make the records referred to in subsections (1) and (2) available to the Minister on request.

## Definition of *authorized person*

**19 (1)** For the purposes of this section, *authorized person* means a person authorized by a competent authority to conduct temperature screenings at an aerodrome located outside of Canada.

## Exception

**(2)** An air carrier may rely on an authorized person to conduct the temperature screening under subsection 12(1), in which case subsection 12(2) and sections 13, 14 and 16 to 18 do not apply to that air carrier.

## Notification

**(3)** The air carrier must notify every person boarding the aircraft for the flight that they are not permitted to board an aircraft for a flight to Canada for a period of 14 days if the temperature screening indicates that they have an elevated temperature, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## Period of 14 days

**(4)** If the temperature screening indicates that a person has an elevated temperature, that person is not permitted to board an aircraft for a flight to Canada for a period of 14 days after the temperature screening, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

## Equipment

**(5)** The air carrier must ensure that the equipment used to conduct those temperature screenings is calibrated and maintained so that the equipment is in proper operating condition.

## Temperature Screening – Aerodromes in Canada

### Definition of *screening authority*

**20 (1)** For the purposes of this section and sections 21 to 31, *screening authority* has the same meaning as in section 3 of the *Canadian Aviation Security Regulations, 2012*.

## Application

**(2)** Sections 21 to 31 apply to all of the following persons:

- (a)** a person entering a restricted area within an air terminal building at an aerodrome listed in Schedule 1 from a non-restricted area;
- (b)** a person undergoing a screening at a nonpassenger screening checkpoint outside an air terminal building at an aerodrome listed in Schedule 1;
- (c)** the operator of an aerodrome listed in Schedule 1;
- (d)** a screening authority at an aerodrome listed in Schedule 1;
- (e)** an air carrier operating a flight departing from an air terminal building at an aerodrome listed in Schedule 1.

**Non-application**

**(3)** Sections 21 to 31 do not apply to any of the following persons:

- (a)** a child who is less than two years of age;
- (b)** a person who provides a medical certificate certifying that their elevated temperature is not related to COVID-19;
- (c)** a member of emergency response provider personnel who is responding to an emergency;
- (d)** a peace officer who is responding to an emergency.

**Requirement**

**21** A person entering a restricted area within an air terminal building from a non-restricted area within the air terminal building must do so at a passenger screening checkpoint or non-passenger screening checkpoint.

**Requirement — temperature screening**

**22 (1)** Subject to subsection (3), a screening authority must conduct a temperature screening of every person who presents themselves at a passenger screening checkpoint or non-passenger screening checkpoint within an air terminal building for the purpose of entering a restricted area from a non-restricted area and of every person undergoing a screening at a non-passenger screening checkpoint outside an

air terminal building. The screening must be conducted using equipment that complies with the standards and conducted according to the procedures set out in the standards.

### **Second screening**

**(2)** Following a rest period of 10 minutes, the screening authority must conduct a second temperature screening if the first temperature screening indicates that the person has an elevated temperature. The second temperature screening must be conducted using equipment that complies with the standards and conducted according to the procedures set out in the standards.

### **Exception**

**(3)** If the temperature screening of a person, other than a passenger, who presents themselves at a passenger screening checkpoint or non-passenger screening checkpoint within an air terminal building for the purpose of entering a restricted area from a non-restricted area, or of a person who is undergoing a screening at a non-passenger screening checkpoint outside an air terminal building, indicates that the person does not have an elevated temperature, the screening authority is not required to conduct any further temperature screenings of that person for the duration of the day during which the temperature screening was conducted.

### **Notification — consequence of elevated temperature**

**23 (1)** An air carrier must notify every person, other than a crew member, who intends to board an aircraft for a flight that the air carrier operates that they may not be permitted to board an aircraft for a flight originating in Canada and that they must not enter a restricted area at any aerodrome in Canada for a period of 14 days if the temperature screening conducted under subsection 22(2) indicates that they have an elevated temperature, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Confirmation — consequence of elevated temperature**

**(2)** Before passing beyond a passenger screening checkpoint to board an aircraft for a flight, every person other than a crew member must confirm to the air carrier operating the flight that they understand that they may not be permitted to board an

aircraft for a flight originating in Canada and that they must not enter a restricted area at any aerodrome in Canada for a period of 14 days if the temperature screening conducted under subsection 22(2) indicates that they have an elevated temperature, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Prohibition — elevated temperature**

**24 (1)** If the temperature screening conducted under subsection 22(2) indicates that the person has an elevated temperature, the screening authority must

(a) deny the person entry to the restricted area; and

(b) notify the person that they are not permitted to board an aircraft for a flight originating in Canada or enter a restricted area at any aerodrome in Canada for a period of 14 days after the denial, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Prohibition — refusal**

**(2)** If a person refuses to be subjected to a temperature screening, the screening authority must deny them entry to the restricted area.

### **Period of 14 days**

**25** A person who is denied entry to the restricted area under section 24 is not permitted to enter a restricted area at any aerodrome in Canada for a period of 14 days after the denial, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Denial — person intending to board aircraft**

**26 (1)** If, under section 24, a screening authority denies entry to a restricted area to a person who intends to board an aircraft for a flight, other than a crew member, the screening authority must, for the purpose of paragraph 26(4)(a), notify the air carrier operating the flight that that person has been denied entry to the restricted area and provide the person's name and flight number to the air carrier.

### **Denial — person not intending to board aircraft**

(2) If, under section 24, a screening authority denies entry to a restricted area to a person who does not intend to board an aircraft for a flight, the screening authority must, for the purpose of subsection 26(5), provide the following information to the operator of the aerodrome:

- (a) the person's name as it appears on their document of entitlement;
- (b) the number or identifier of the person's document of entitlement; and
- (c) the reason why the person was denied entry to the restricted area.

### **Denial — crew member**

(3) If, under section 24, a screening authority denies entry to a restricted area to a crew member, the screening authority must provide the information referred to in subsection (2) to the air carrier for the purpose of allowing the air carrier to assign a replacement crew member, if necessary.

### **Denial — air carrier requirements**

- (4) An air carrier that has been notified under subsection (1) must
- (a) ensure that the person is directed to a location where they can retrieve their checked baggage, if applicable; and
  - (b) if the person is escorted to a location where they can retrieve their checked baggage, ensure that the escort wears a face mask and maintains a distance of at least two metres between themselves and the person.

### **Denial — aerodrome operator requirement**

(5) The operator of an aerodrome that has been notified under subsection (2) must suspend the person's restricted area entry privileges for a period of 14 days after the person was denied entry to the restricted area, unless the person provides a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Prohibition — restricted area**

(6) If, under section 24, a screening authority denies entry to a restricted area to a crew member or to a person who does not intend to board an aircraft for a flight, the crew member or that person must not present themselves at a passenger screening checkpoint or non-passenger screening checkpoint at any aerodrome for the purpose

of entering a restricted area for a period of 14 days after the denial, unless they provide a medical certificate certifying that their elevated temperature is not related to COVID-19.

### **Requirement — equipment**

**27** A screening authority must ensure that the equipment that it uses to conduct temperature screenings under section 22 is calibrated and maintained so that the equipment is in proper operating condition.

### **Requirement — training**

**28** A screening authority must ensure that the person using the equipment to conduct temperature screenings under section 22 has been trained to operate that equipment and interpret the data that it produces.

### **Record keeping — equipment**

**29 (1)** A screening authority must keep a record of the following information with respect to any temperature screening it conducts:

- (a)** the number of persons who are denied entry under paragraph 24(1)(a) at a passenger screening checkpoint;
- (b)** the number of persons who are denied entry under paragraph 24(1)(a) at a non-passenger screening checkpoint;
- (c)** the flight number of any person who is denied entry under paragraph 24(1)(a) at a passenger screening checkpoint and the date on which the person was denied entry;
- (d)** the make and model of the equipment that the screening authority uses to conduct the temperature screenings under section 22;
- (e)** the date and time when that equipment was calibrated and maintained, as well as the name of the person who performed the calibration or maintenance; and
- (f)** the results of the calibration and the activities performed during the maintenance of that equipment, including any corrective measures taken.

### **Record keeping — training**

**(2)** The screening authority must keep a record of the name of every person who has received training under section 28, as well as the contents of the training.

### **Retention**

**(3)** The screening authority must

**(a)** retain the records referred to in subsection (1) for a period of at least 90 days after the day on which the record was created; and

**(b)** retain the records referred to in subsection (2) in accordance with any record retention requirements under the *Privacy Act*.

### **Ministerial request**

**(4)** The screening authority must make the records referred to in subsections (1) and (2) available to the Minister on request.

### **Temperature screening facilities**

**30** The operator of an aerodrome must make facilities available for temperature screening that are accessible without having to enter a restricted area.

### **Requirement — air carrier representative**

**31** An air carrier must ensure that the screening authority at the aerodrome has been provided with the name and telephone number of the on-duty representative of the air carrier for the purpose of facilitating the return of checked baggage to persons who are denied entry to a restricted area under section 24.

### **Face Masks**

#### **Non-application**

**32 (1)** Sections 33 to 38 do not apply to any of the following persons:

**(a)** a child who is less than two years of age;

**(b)** a child who is at least two years of age but less than six years of age who is unable to tolerate wearing a face mask;

**(c)** a person who provides a medical certificate certifying that they are unable to wear a face mask for a medical reason;

- (d) a person who is unconscious;
- (e) a person who is unable to remove their face mask without assistance;
- (f) a crew member;
- (g) a gate agent.

### **Face mask readily available**

(2) An adult responsible for a child who is at least two years of age but less than six years of age must ensure that a face mask is readily available to the child before boarding an aircraft for a flight.

### **Wearing of face mask**

(3) An adult responsible for a child must ensure that the child wears a face mask when wearing one is required under section 35 and complies with any instructions given by a gate agent under section 36 if the child

- (a) is at least two years of age but less than six years of age and is able to tolerate wearing a face mask; or
- (b) is at least six years of age.

### **Notification**

33 A private operator or air carrier must notify every person who intends to board an aircraft for a flight that the private operator or air carrier operates that the person must

- (a) be in possession of a face mask before boarding;
- (b) wear the face mask at all times during the boarding process, during the flight and from the moment the doors of the aircraft are opened until the person enters the air terminal building; and
- (c) comply with any instructions given by a gate agent or a crew member with respect to wearing a face mask.

### **Obligation to possess face mask**

34 Every person who is at least six years of age must be in possession of a face mask before boarding an aircraft for a flight.

## **Wearing of face mask — persons**

**35 (1)** Subject to subsections (2) and (3), a private operator or air carrier must require a person to wear a face mask at all times during the boarding process and during a flight that the private operator or air carrier operates.

### **Exceptions — person**

**(2)** Subsection (1) does not apply

- (a)** when the safety of the person could be endangered by wearing a face mask;
- (b)** when the person is drinking or eating, unless a crew member instructs the person to wear a face mask;
- (c)** when the person is taking oral medications;
- (d)** when a gate agent or a crew member authorizes the removal of the face mask to address unforeseen circumstances or the person's special needs; or
- (e)** when a gate agent, a member of the aerodrome security personnel or a crew member authorizes the removal of the face mask to verify the person's identity.

### **Exceptions — flight deck**

**(3)** Subsection (1) does not apply to any of the following persons when they are on the flight deck:

- (a)** a Department of Transport air carrier inspector;
- (b)** an inspector of the civil aviation authority of the state where the aircraft is registered;
- (c)** an employee of the private operator or air carrier who is not a crew member and who is performing their duties;
- (d)** a pilot, flight engineer or flight attendant employed by a wholly owned subsidiary or a code share partner of the air carrier;
- (e)** a person who has expertise related to the aircraft, its equipment or its crew members and who is required to be on the flight deck to provide a service to the private operator or air carrier.

## **Compliance**

**36** A person must comply with any instructions given by a gate agent, a member of the aerodrome security personnel or a crew member with respect to wearing a face mask.

### **Prohibition — private operator or air carrier**

**37** A private operator or air carrier must not permit a person to board an aircraft for a flight that the private operator or air carrier operates if

- (a) the person is not in possession of a face mask; or
- (b) the person refuses to comply with an instruction given by a gate agent or a crew member with respect to wearing a face mask.

### **Refusal to comply**

**38 (1)** If, during a flight that a private operator or air carrier operates, a person refuses to comply with an instruction given by a crew member with respect to wearing a face mask, the private operator or air carrier must

- (a) keep a record of
  - (i) the date and flight number,
  - (ii) the person's name, date of birth and contact information, including the person's home address, telephone number and email address,
  - (iii) the person's seat number, and
  - (iv) the circumstances related to the refusal to comply; and
- (b) inform the Minister as soon as feasible of any record created under paragraph (a).

### **Retention period**

**(2)** The private operator or air carrier must retain the record referred to in paragraph (1)(a) for a period of at least 12 months after the day of the flight.

### **Ministerial request**

**(3)** The private operator or air carrier must make the records referred to in paragraph (1)(a) available to the Minister on request.

### **Wearing of face mask — crew member**

**39 (1)** Subject to subsections (2) and (3), a private operator or air carrier must require a crew member to wear a face mask at all times during the boarding process and during a flight that the private operator or air carrier operates.

**Exceptions — crew member**

**(2)** Subsection (1) does not apply

**(a)** when the safety of the crew member could be endangered by wearing a face mask;

**(b)** when the wearing of a face mask by the crew member could interfere with operational requirements or the safety of the flight; or

**(c)** when the crew member is drinking, eating or taking oral medications.

**Exception — flight deck**

**(3)** Subsection (1) does not apply to a crew member who is a flight crew member when they are on the flight deck.

**Wearing of face mask — gate agent**

**40 (1)** Subject to subsections (2) and (3), a private operator or air carrier must require a gate agent to wear a face mask during the boarding process for a flight that the private operator or air carrier operates.

**Exceptions**

**(2)** Subsection (1) does not apply

**(a)** when the safety of the gate agent could be endangered by wearing a face mask; or

**(b)** when the gate agent is drinking, eating or taking oral medications.

**Exception — physical barrier**

**(3)** During the boarding process, subsection (1) does not apply to a gate agent if the gate agent is separated from any other person by a physical barrier that allows the gate agent and the other person to interact and reduces the risk of exposure to COVID-19.

## Deplaning

### Non-application

**41 (1)** Section 42 does not apply to any of the following persons:

- (a) a child who is less than two years of age;
- (b) a child who is at least two years of age but less than six years of age who is unable to tolerate wearing a face mask;
- (c) a person who provides a medical certificate certifying that they are unable to wear a face mask for a medical reason;
- (d) a person who is unconscious;
- (e) a person who is unable to remove their face mask without assistance;
- (f) a person who is on a flight that originates in Canada and is destined to another country.

### Wearing of face mask

**(2)** An adult responsible for a child must ensure that the child wears a face mask when wearing one is required under section 42 if the child

- (a) is at least two years of age but less than six years of age and is able to tolerate wearing a face mask; or
- (b) is at least six years of age.

### Wearing of face mask — person

**42** A person who is on board an aircraft must wear a face mask at all times from the moment the doors of the aircraft are opened until the person enters the air terminal building, including by a passenger loading bridge.

## Screening Authority

### Definition of *screening authority*

**43 (1)** For the purposes of sections 44 and 47, ***screening authority*** means a person responsible for the screening of persons and goods at an aerodrome set out in the schedule to the *CATSA Aerodrome Designation Regulations* or at any other place

designated by the Minister under subsection 6(1.1) of the *Canadian Air Transport Security Authority Act*.

### **Non-application**

**(2)** Sections 44 to 47 do not apply to any of the following persons:

- (a)** a child who is less than two years of age;
- (b)** a child who is at least two years of age but less than six years of age who is unable to tolerate wearing a face mask;
- (c)** a person who provides a medical certificate certifying that they are unable to wear a face mask for a medical reason;
- (d)** a person who is unconscious;
- (e)** a person who is unable to remove their face mask without assistance;
- (f)** a member of emergency response provider personnel who is responding to an emergency;
- (g)** a peace officer who is responding to an emergency.

### **Wearing of face mask**

**(3)** An adult responsible for a child must ensure that the child wears a face mask when wearing one is required under subsection 44(2) and removes it when required by a screening officer to do so under subsection 44(3) if the child

- (a)** is at least two years of age but less than six years of age and is able to tolerate wearing a face mask; or
- (b)** is at least six years of age.

### **Requirement — passenger screening checkpoint**

**44 (1)** A screening authority must notify a person who is subject to screening at a passenger screening checkpoint that they must wear a face mask at all times during screening.

### **Wearing of face mask — person**

**(2)** Subject to subsection (3), a person who is the subject of screening referred to in subsection (1) must wear a face mask at all times during screening.

**Requirement to remove face mask**

**(3)** A person who is required by a screening officer to remove their face mask during screening must do so.

**Wearing of face mask — screening officer**

**(4)** A screening officer must wear a face mask at a passenger screening checkpoint when conducting the screening of a person if, during the screening, the screening officer is two metres or less from the person being screened.

**Requirement — non-passenger screening checkpoint**

**45 (1)** A person who presents themselves at a non-passenger screening checkpoint to enter into a restricted area must wear a face mask at all times.

**Wearing of face mask — screening officer**

**(2)** Subject to subsection (3), a screening officer must wear a face mask at all times at a non-passenger screening checkpoint.

**Exceptions**

**(3)** Subsection (2) does not apply

**(a)** when the safety of the screening officer could be endangered by wearing a face mask; or

**(b)** when the screening officer is drinking, eating or taking oral medications.

**Exception — physical barrier**

**46** Sections 44 and 45 do not apply to a person, including a screening officer, if the person is two metres or less from another person and both persons are separated by a physical barrier that allows them to interact and reduces the risk of exposure to COVID-19.

**Prohibition — passenger screening checkpoint**

**47 (1)** A screening authority must not permit a person who has been notified to wear a face mask and refuses to do so to pass beyond a passenger screening checkpoint into a restricted area.

**Prohibition — non-passenger screening checkpoint**

**(2)** A screening authority must not permit a person who refuses to wear a face mask to pass beyond a non-passenger screening checkpoint into a restricted area.

## **Designated Provisions**

### **Designation**

**48 (1)** The provisions of this Interim Order set out in column 1 of Schedule 2 are designated as provisions the contravention of which may be dealt with under and in accordance with the procedure set out in sections 7.7 to 8.2 of the Act.

### **Maximum amounts**

**(2)** The amounts set out in column 2 of Schedule 2 are the maximum amounts of the penalty payable in respect of a contravention of the designated provisions set out in column 1.

### **Notice**

**(3)** A notice referred to in subsection 7.7(1) of the Act must be in writing and must specify

**(a)** the particulars of the alleged contravention;

**(b)** that the person on whom the notice is served or to whom it is sent has the option of paying the amount specified in the notice or filing with the Tribunal a request for a review of the alleged contravention or the amount of the penalty;

**(c)** that payment of the amount specified in the notice will be accepted by the Minister in satisfaction of the amount of the penalty for the alleged contravention and that no further proceedings under Part I of the Act will be taken against the person on whom the notice in respect of that contravention is served or to whom it is sent;

**(d)** that the person on whom the notice is served or to whom it is sent will be provided with an opportunity consistent with procedural fairness and natural justice to present evidence before the Tribunal and make representations in relation to the alleged contravention if the person files a request for a review with the Tribunal; and

(e) that the person on whom the notice is served or to whom it is sent will be considered to have committed the contravention set out in the notice if they fail to pay the amount specified in the notice and fail to file a request for a review with the Tribunal within the prescribed period.

## Repeal

**49 The *Interim Order Respecting Certain Requirements for Civil Aviation Due to COVID-19, No. 25*, made on March 30, 2021, is repealed.**

## SCHEDULE 1

(Subsection 20(2))

### Aerodromes

#### Aerodromes

Name	ICAO Location Indicator
Calgary International Airport	CYYC
Edmonton International Airport	CYEG
Halifax / Robert L. Stanfield International Airport	CYHZ
Kelowna International Airport	CYLW
Montréal / Pierre Elliott Trudeau International Airport	CYUL
Ottawa / Macdonald-Cartier International Airport	CYOW
Québec / Jean Lesage International Airport	CYQB
Regina International Airport	CYQR
Saskatoon / John G. Diefenbaker International Airport	CYXE
St. John's International Airport	CYYT
Toronto / Billy Bishop Toronto City Airport	CYTZ
Toronto / Lester B. Pearson International Airport	CYYZ
Vancouver International Airport	CYVR

Victoria International Airport	CYYJ
Winnipeg / James Armstrong Richardson International Airport	CYWG

## PRIVY COUNCIL OFFICE

### ***Appointment opportunities***

*We know that our country is stronger — and our government more effective — when decision-makers reflect Canada's diversity. The Government of Canada has implemented an appointment process that is transparent and merit-based, strives for gender parity, and ensures that Indigenous peoples and minority groups are properly represented in positions of leadership. We continue to search for Canadians who reflect the values that we all embrace: inclusion, honesty, fiscal prudence, and generosity of spirit. Together, we will build a government as diverse as Canada.*

*We are equally committed to providing a healthy workplace that supports one's dignity, self-esteem and the ability to work to one's full potential. With this in mind, all appointees will be expected to take steps to promote and maintain a healthy, respectful and harassment-free work environment.*

*The Government of Canada is currently seeking applications from diverse and talented Canadians from across the country who are interested in the following positions.*

## Current opportunities

The following opportunities for appointments to Governor in Council positions are currently open for applications. Every opportunity is open for a minimum of two weeks from the date of posting on the [Governor in Council appointments website](#).

### Governor in Council appointment opportunities

Position	Organization	Closing date
Member	Atlantic Pilotage Authority Canada	
Commissioner	British Columbia Treaty Commission	
Director	Business Development Bank of Canada	
President and Chief Executive Officer	Business Development Bank of Canada	
Member	Canada Council for the Arts	
Vice-Chairperson	Canada Council for the Arts	
President and Chief Executive Officer	Canada Development Investment Corporation	
Commissioner for Employers	Canada Employment Insurance Commission	
Director	Canada Infrastructure Bank	
Director	Canada Mortgage and Housing Corporation	
Chairperson	Canada-Nova Scotia Offshore Petroleum Board	
Member of the Board of Directors	Canada Post	
Member	Canadian Cultural Property Export Review Board	
Chairperson	Canadian Dairy Commission	
Chief Executive Officer	Canadian Dairy Commission	
Director	Canadian Energy Regulator	

Federal Housing Advocate	Canadian Human Rights Commission	
Chairperson	Canadian Human Rights Tribunal	
Member	Canadian Human Rights Tribunal	
Member	Canadian Institutes of Health Research	
Chairperson	Canadian Museum of History	
Director	Canadian Museum of History	
Director	Canadian Race Relations Foundation	
Chairperson	Canadian Transportation Agency	
Temporary Member	Canadian Transportation Agency	
Chairperson	Destination Canada	
Director	Destination Canada	
Director	Farm Credit Canada	
Vice-Chairperson	Federal Public Sector Labour Relations and Employment Board	
Director	Freshwater Fish Marketing Corporation	
Member	Great Lakes Pilotage Authority Canada	
Director (Federal)	Hamilton-Oshawa Port Authority	
Member, Yukon	Historic Sites and Monuments Board of Canada	
Governor	International Development Research Centre	
Member (appointment to roster)	International Trade and International Investment Dispute Settlement Bodies	
Chairperson	Laurentian Pilotage Authority Canada	
Director	Marine Atlantic Inc.	
Chairperson	Military Police Complaints Commission of Canada	
Member	Military Police Complaints Commission of Canada	
Member	National Arts Centre Corporation	

Member	National Seniors Council	
Commissioner and Director	Office of the Commissioner of Indigenous Languages	
Superintendent	Office of the Superintendent of Financial Institutions Canada	
Member	Payments in Lieu of Taxes Dispute Advisory Panel	
Director	Public Sector Pension Investment Board of Canada	
Commissioner	Roosevelt Campobello International Park Commission	
Chairperson	Standards Council of Canada	
Registrar	Supreme Court of Canada	
Director (Federal)	Toronto Port Authority	
Chairperson and Member	Transportation Appeal Tribunal of Canada	
Vice-Chairperson	Transportation Appeal Tribunal of Canada	
Director (Federal)	Trois-Rivières Port Authority
