RESTRICTED-FR

Primary Dealer Credit Facility Collateral Report
For Friday, September 26

Highlights

- Total PDCF borrowing rose to more than $144 billion on Friday, driven largely by the elevated levels of borrowing by Morgan Stanley and Merrill Lynch.
- Dealers have made extensive use of the relaxed PDCF collateral requirements that took effect in mid-September. Approximately, 72 percent of total collateral now consists of securities not previously eligible at the PDCF. Equities comprise the largest component of this expanded collateral pool (41 percent of total collateral).
- In addition, the September 22nd change in collateral eligibility rules for Morgan Stanley, Merrill Lynch and Goldman Sachs that allowed the pledging of foreign denominated securities is also being utilized by these institutions. On Friday, approximately 16.7 percent of the total collateral of these dealers was comprised of foreign denominated securities.

Notes

1. The market value of the overnight PDCF collateral is the market value reported by the clearing banks.
2. As of May 30, the classification of securities has been slightly adjusted to more closely align securities with their descriptive category.
