The HKMA has reviewed the performance of these nine PLPs in the past two years, and considers that they are all active participants in the CNH market, and have been effectively providing CNH funding and making market for CNH instruments, as well as using the Hong Kong platform as a global hub for offshore RMB business. The HKMA will continue to provide each of the PLPs with a dedicated RMB repo facility of RMB2 billion, so as to facilitate their liquidity management when they carry out market-making activities and provide liquidity in the CNH market. The HKMA will also continue to regularly review the experience in operating the scheme.
