Privileged & Confidential

For your review, attached are revised talking points for Bob Willumstad's proposed meeting next week with Tim Geithner on the primary dealer initiative.

These incorporate comments received from the working group so far, and reflect Rodge's suggestions with respect to the liquidity benefits.

Please send me any questions or comments you have at your earliest convenience so we can finalize these in advance of Tuesday morning's 11:30 meeting.

Rodge and Tony - please let us know your thoughts on whether, in addressing the liquidity benefits, it would be better to (a) speak generally or (b) also provide detail on the amount of available Fed eligible collateral from our analysis.

Thanks very much,

Aaron

Daily transaction volume by product type for a bottom quintile primary dealer Not for Distribution

	Product type	% of total	Market share	Based on Fed information,		
[Autodate]	TIIS	0.1%	0.04%	an existing bottom quintile primary dealer is focused		
	Corporate securities	1.4% 5.3% 6.1% 87.1%	0.02%	primarily on US treasury		
	Federal agency MBS		0.05%	securities		
	Federal agency securities		0.18%	 FP's current transaction volume focus is also primarily on government securities 		
				 60% U.S. government securities 		
				– 10% on agency MBS		
	Treasury securities		0.49%	- 30% corporate bonds		
				 To increase transaction volume in the near term, AIG/FP would continue to focus on and expand the 		
	— Total	100%	0.44%	volume of Treasury securities in order to achieve a market share of ~0.5%
