Date Funded (first funding):	Sept 29, 2010	City:	Chicago
Date Repaid <sup>1</sup> :	N/A	State:	Illinois

<sup>1</sup>If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

<input checked="" type="checkbox"/>	Increase lending or reduce lending less than otherwise would have occurred.	NSFCU significantly increased lending in 2016, and this funding enabled this.
<input checked="" type="checkbox"/>	To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).	Major loan types: small dollar payday alternative loans and auto loan - first purchase and refinance.
<input type="checkbox"/>	Increase securities purchased (ABS, MBS, etc.).	

<input type="checkbox"/>	Make other investments	
<input type="checkbox"/>	Increase reserves for non-performing assets	
<input type="checkbox"/>	Reduce borrowings	
<input type="checkbox"/>	Increase charge-offs	
<input type="checkbox"/>	Purchase another financial institution or purchase assets from another financial institution	
<input checked="" type="checkbox"/>	Held as non-leveraged increase to total capital	This funding helped NSCFUCU continue to be a sustainable, well capitalized financial institution.

What actions were you able to avoid because of the capital infusion of CPP/CDCI funds?

CDCI funds enabled North Side to continue lending aggressively -- experiencing an approximately 20% growth rate in loan originations. These funds, combined with other sources allowed the credit union to maintain capital ratios about 8%, well above the NCUA's safety and soundness standards.

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

The credit union was able to sustain itself through several years that were challenging to many financial institutions while growing lending. In 2016, the credit union was able to lend over \$3 million in new loans (significant for an \$8.5 million institution). This is a historical record for North Side.

Please describe any other actions that you were able to undertake with the capital infusion of CPP/CDCI funds.
