## System Open Market Account Holdings

The System Open Market Account (SOMA), managed by the Federal Reserve Bank of New York, contains dollar-denominated assets acquired via open market operations. These securities serve three purposes:

[Printer version](#)

- Collateral for U.S. currency in circulation and other reserve factors that show up as liabilities on the Federal Reserve System's balance sheet
- A tool for the Fed's management of reserve balances
- A store of liquidity in the event an emergency need for liquidity arises

### SOMA Historical Data Export Builder

The SOMA Holdings site contains data from 2003 to the present. SOMA holdings data is as of the close of business each Wednesday and is published every Thursday by close of business. The Export Builder tool is meant to facilitate the manual download of data, and demonstrate how api calls are constructed. Please refer to the [API documentation](#) for detailed information on the use of the web service.
