# Financial Crises: Causes, Consequences, and Policy Responses

Stijn Claessens

M. Ayhan Kose

Luc Laeven

Fabián Valencia

## Summary

“The lingering effects of the economic crisis are still visible—this shows a clear need to improve our understanding of financial crises. This book surveys a wide range of crises, including banking, balance of payments, and sovereign debt crises. It begins with an overview of the various types of crises and introduces a comprehensive database of crises. Broad lessons on crisis prevention and management, as well as the short-term economic effects of crises, recessions, and recoveries, are discussed.” (IMF)
