Calculations: Own Source General and Utility Revenue (OSGUR) for each City and County is calculated using the "2017FinEstDAT_02202020modp_pu.txt" and "Fin_GID_2017.txt" data files, both included in the 2017 State & Local Government Finance Historical Datasets and Tables Public Use Files, as of April 6, 2020, and the 2017 U.S. Census Bureau key of item codes, government codes, and state codes, also available in the Public Use Files. Using these files together, each City's and County's OSGUR is calculated by adding all of the following code amounts listed below (in thousands of dollars).

Own-Source General Revenue Items: A01, A03, A09, A10, A12, A16, A18, A21, A36, A44, A45, A50, A56, A59, A60, A61, A80, A81, A87, A89, T01, T09, T10, T11, T12, T13, T14, T15, T16, T19, T20, T21, T22, T23, T24, T25, T27, T28, T29, T40, T41, T50, T51, T53, T99, U01, U11, U20, U21, U30, U40, U41, U50, U95, U99.

Calculations: Own Source General and Utility Revenue (OSGUR) for each City and County is calculated using the "2017FinEstDAT_02202020modp_pu.txt" and "Fin_GID_2017.txt" data files, both included in the 2017 State & Local Government Finance Historical Datasets and Tables Public Use Files, as of April 6, 2020, and the 2017 U.S. Census Bureau key of item codes, government codes, and state codes, also available in the Public Use Files. Using these files together, each City's and County's OSGUR is calculated by adding all of the following code amounts below (in thousands of dollars).
