

## Notes to Single Family Book Characteristics Report

**Data** – RDW data was extracted on January 29, 2010. Fannie Mae Pop data was extracted on February 01, 2010.

**Populations** – Three populations are used in this report. The first two populations are the Conventional Single-family Book of Business Population, which is used to identify profile characteristics (excluding SDQ and CE) and the Conventional Single-family Delinquent and Credit Enhancement Population, which are used for SDQ and CE characteristics. The third population is the Single-family Mortgage Credit Book of Business Population, which is the Conventional Single-family Book of Business Population with the addition of Government loans. These populations do not contain information on any Private Label Security loans.

**Conventional Single-family Book of Business Population** – This population excludes Government, Reverse mortgages, and Liquidated mortgages.

**Conventional Single-family Delinquent and Credit Enhancement Population** – This population excludes Government, Reverse mortgages, Liquidated mortgages, FHA assigned mortgages, mortgages missing a current loan status, mortgages with reporting problems, and Cal HFA Deal mortgages.

**Single-family Mortgage Credit Book of Business Population** – This population includes Government but excludes Reverse mortgages and Liquidated mortgages.

**Credit Enhancement Identification** – The Credit Enhancement classification is based on the most recent value of the Loan Credit Enhancement Code (CE\_FLAG).

**Report Availability Date** – This report should be available within seven weeks after the end of the period or by the 17<sup>th</sup> day of the second month after the end of the period. For example the March report should be available by May 17<sup>th</sup>.
